CLINICFLOW · FEATURE SPECIFICATION

Everything your clinic needs — delivered ready to use

A complete, fully working system covering the patient journey from online booking to video consultation, prescription, billing and follow-up — plus the back office that runs it.

Clinic Website & Online Booking

- Modern responsive website with **specialities, doctor profiles**, ratings, timings, FAQ, map & enquiry form
- Live **slot availability** per doctor — in-clinic or video; leaves & holidays auto-blocked
- 3-step booking with **mobile OTP verification** & family-member selection
- Pay online (Razorpay) or at clinic · token number · add-to-calendar · WhatsApp confirmation

Online Video Consultation

STAR FEATURE

- **Built-in HD video calls** in the browser — no app download, no per-minute charges
- Pre-join camera & mic test · room opens 15 min before the slot · secure joining link
- Mute, camera flip, **screen share, chat & report sharing** during the call
- Doctor sees patient history in-call · auto status updates · e-Rx right after the call

Appointment & Schedule Management

- **Day calendar** with doctor columns & weekly view · click-to-book on free slots
- Doctor-wise sessions, slot length, patients per slot, clinic/video modes, fees
- Walk-in tokens, reschedule, cancel, no-show & **auto follow-up fee** detection
- Leaves & holiday calendar with alerts for affected appointments

Live Queue & Token Display

- Real-time queue per doctor — **in lobby, now consulting, yet to arrive**
- One-click check-in, priority patients (senior / emergency), waiting time & ETA
- "Call next patient" for doctors · late & no-show handling
- **Waiting-room TV screen** showing current & next tokens with chime

Doctor Workspace, EMR & e-Prescription

- Vitals, complaints, history, examination, diagnosis with smart suggestions
- **e-Prescription** with medicine autocomplete, Rx templates & "repeat last Rx"
- Tests, advice & follow-up date · **printable branded Rx** with doctor signature
- Patient EMR: visit timeline, BP/weight trends, reports, allergies & alerts

Patient App (Mobile PWA)

- OTP login · upcoming & past visits · **join video call** from the phone
- Self reschedule / cancel within clinic rules · pay pending bills
- Download **prescriptions & bills** · upload lab reports with phone camera
- Manage **family members** on one mobile number · rate the visit

Billing & Payments

- Auto consultation invoice · add procedures/tests from **service price list**
- GST support, discounts, partial payments, refunds & receipts
- Cash, UPI, card, insurance modes · **online payment gateway** (Razorpay)
- Daily collection day-book with payment-mode summary & export

WhatsApp, Reminders & Reviews

- **One-tap WhatsApp** confirmations, reminders, video links & Rx sharing
- Tomorrow's reminder list, follow-ups due & lapsed-patient recall
- Editable message templates · complete message log
- Post-visit **ratings & reviews** shown on website · Google review push

Dashboard & Reports

- Live dashboard: today's load per doctor, video calls, dues & follow-ups
- **Doctor performance**, revenue trends, booking channels, specialities
- No-show rate, **average waiting time**, busiest-hours heatmap
- Top diagnoses & medicines · CSV export of every list

Administration & Security

- Role-based access: **Admin, Reception, Doctor** (doctors see only their patients)
- Clinic branding, booking rules, cancellation window, templates in Settings
- **Automatic daily database backup** · full activity / audit log
- Secure logins, OTP, signed video links, encrypted (https) access

What you get with delivery

- ✓ Complete website + back office + patient app
- ✓ Branding with your clinic name, logo & colours
- ✓ Setup of doctors, schedules, fees & services
- ✓ Installation on hosting with domain & SSL
- ✓ Payment gateway & WhatsApp/SMS integration
- ✓ Existing patient data import (Excel)
- ✓ Hands-on training for doctors & reception
- ✓ Free technical support & updates (1 year)

Technology

- ✓ PHP & MySQL — runs on any standard hosting
- ✓ Fully responsive: desktop, tablet & mobile
- ✓ WebRTC peer-to-peer video, no monthly fees
- ✓ Your data, your server — 100% ownership
