Job Board + SEO | Applicant Tracking | Candidate Database | AI Career Tools | Courses & Services | Agencies & Partners | White-Label | GST Billing

Feature Overview & Capability Brochure

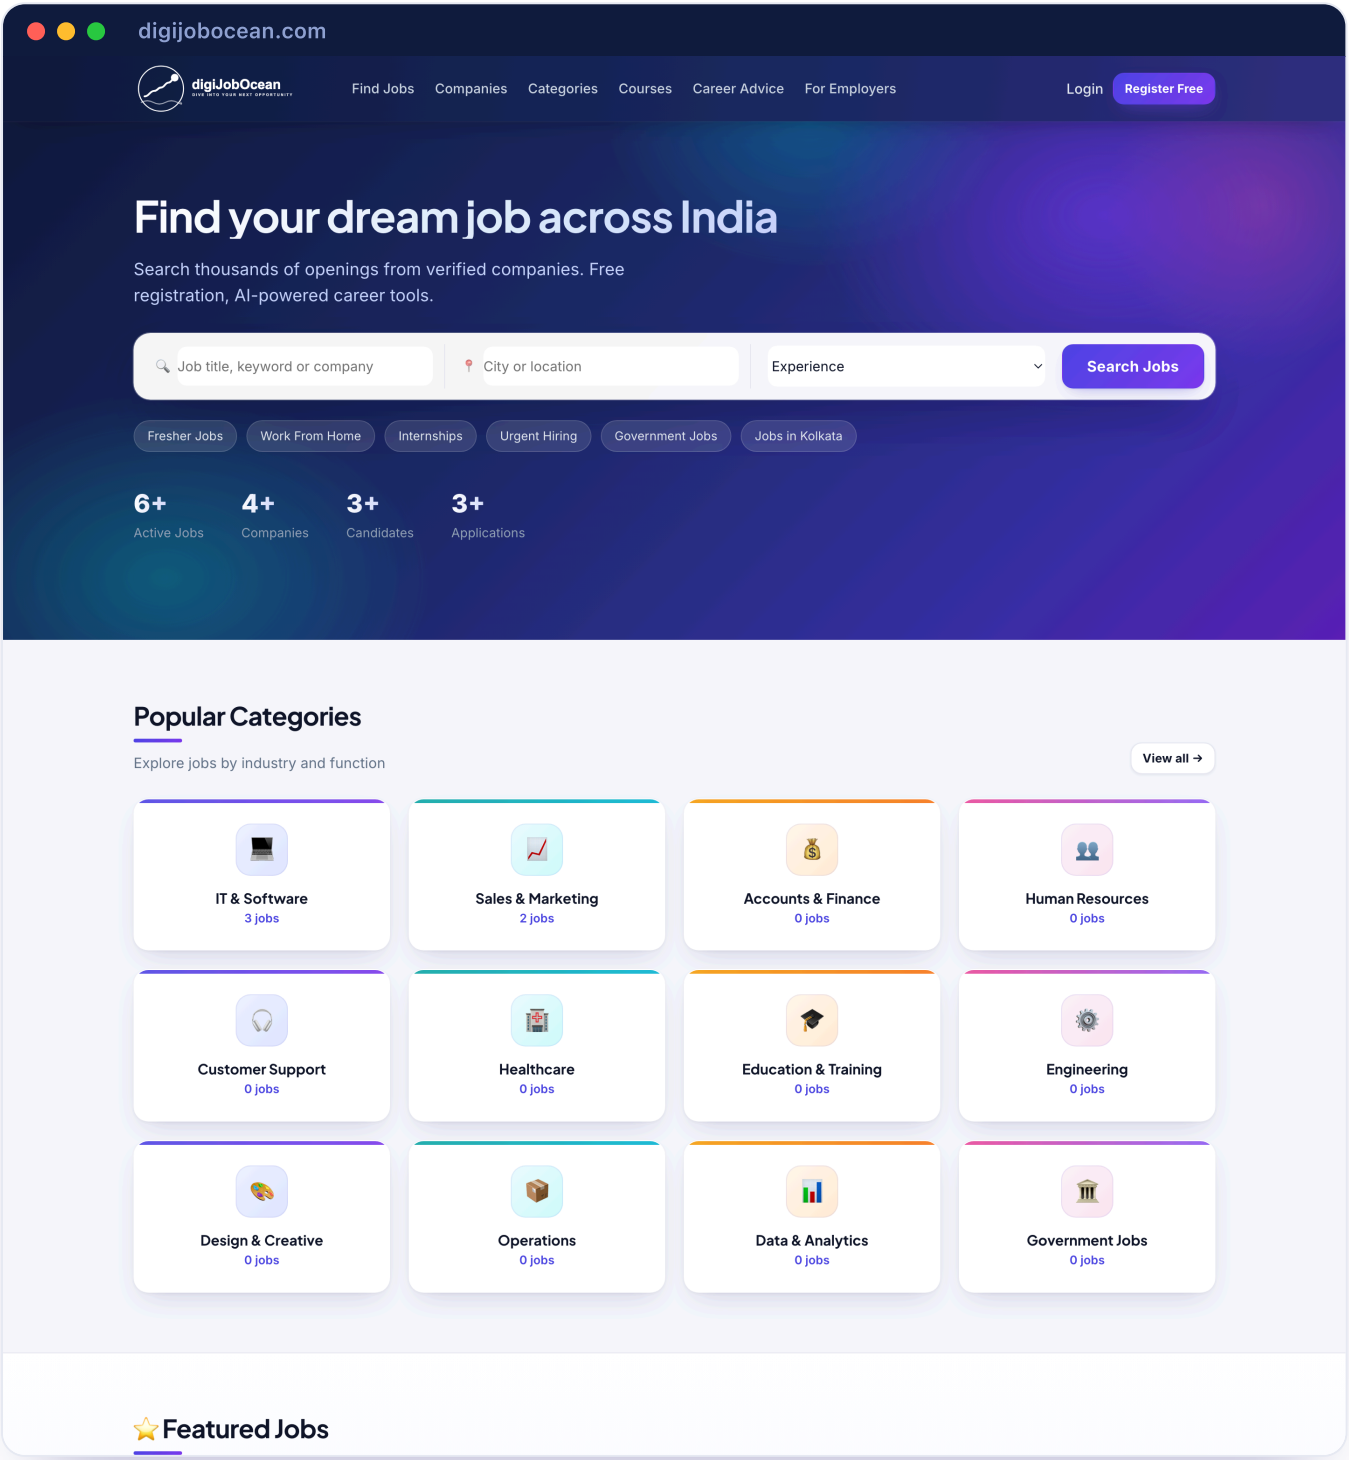

A product of **DigiQore Info Solutions Pvt. Ltd.** · info@digiqore.in · +91 88282 45734

PLATFORM OVERVIEW

One platform for the entire hiring lifecycle

digiJobOcean connects job seekers, employers, recruitment agencies and channel partners in a single, modern ecosystem — from the first job search to the signed offer letter, and every payment and report in between.

4	7+	100%	GST
User ecosystems	AI career tools	Admin-configurable	Ready invoicing

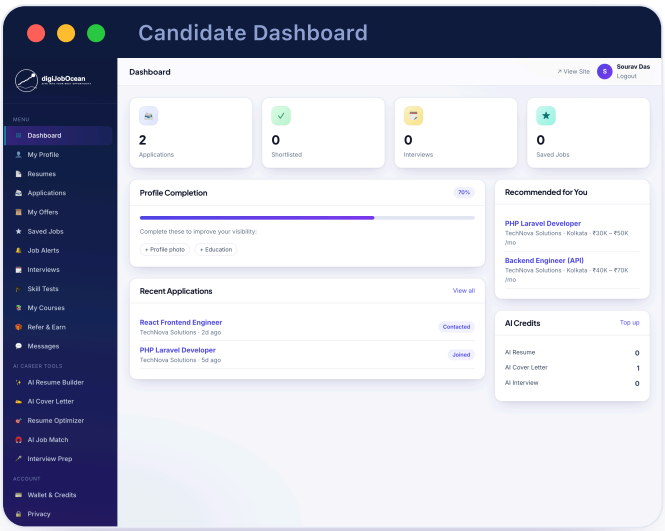

Modern, colourful homepage with smart search, popular categories and featured jobs.

Built for the Indian market — ₹ salary ranges, city-based SEO landing pages (jobs-in-kolkata, fresher-jobs), GST-compliant invoices (CGST/SGST/IGST), and SMS/WhatsApp reach.

FOR JOB SEEKERS

A smarter way to find & land jobs

A complete candidate cockpit — rich profiles, multiple resumes, one-click apply, real-time application tracking, and an AI career suite that helps candidates stand out.

Candidate dashboard — profile completion, applications, alerts & AI tools.

- Rich profile: skills, experience, education, salary
- Multiple resumes & downloadable CVs
- One-click apply + application tracking
- Saved jobs & smart job alerts
- Interview schedule & digital offer letters
- Skill assessments earning skill badges
- Courses marketplace to upskill
- Refer & earn rewards
- Privacy controls on contact visibility
- Installable PWA + web push alerts

✨ AI Career Suite

AI Resume Builder

Generate a polished professional summary & resume in seconds.

AI Cover Letters

Tailored cover letters written for each specific job.

Resume Optimizer

Improve any resume against a target role's keywords.

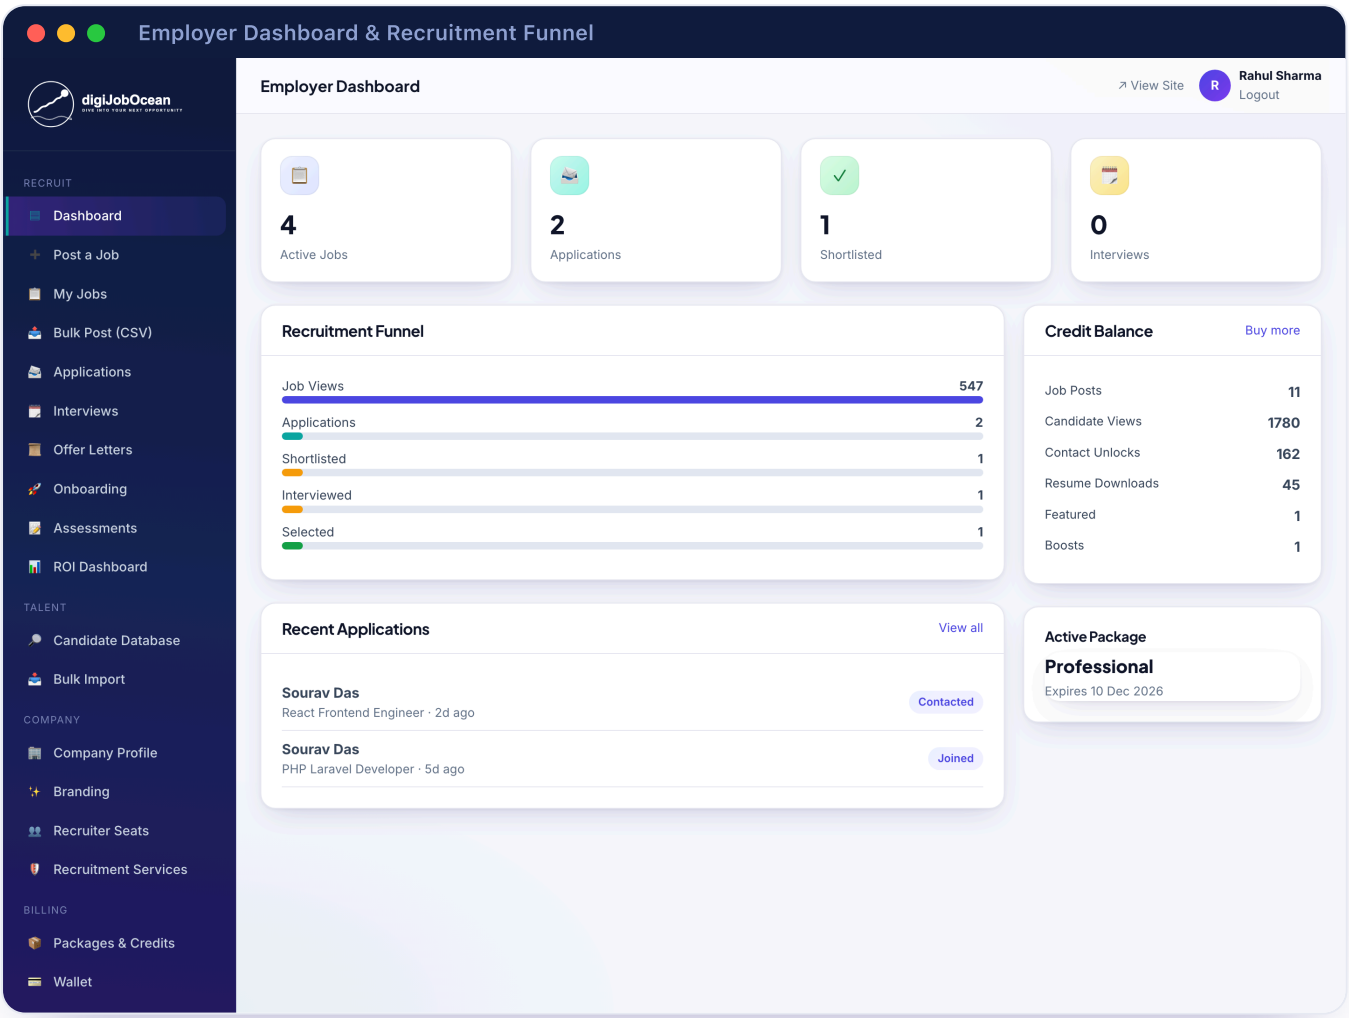

AI Job Match

Percentage-match scoring between a candidate and any job.

FOR EMPLOYERS & RECRUITERS

Hire faster with a full ATS

Post jobs, source from a live candidate database, and manage every applicant through a drag-and-drop pipeline — with a credit-based commercial model that scales from a single recruiter to a full agency.

Employer dashboard — funnel analytics, credit balance, applications & active package.

Job Posting & Bulk CSV

Post single jobs or import in bulk; rich WYSIWYG descriptions.

Applicant Tracking (ATS)

Drag-and-drop kanban across every hiring stage.

Candidate Database

Search active candidates & unlock verified contacts.

Interviews & Offers

Schedule interviews and send digital offer letters.

👥

Recruiter Seats

Add team members with role-based access.

📈

ROI Dashboard

Track spend, hires and cost-per-hire performance.

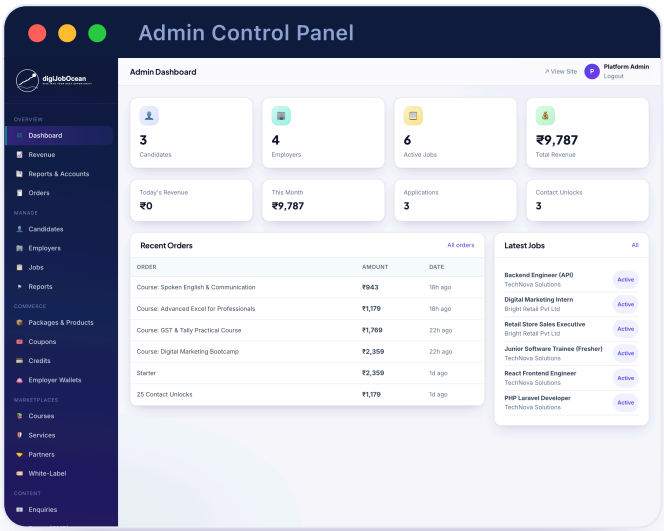

Auto-screening & recommendations rank the best-fit candidates for every role, while onboarding pipelines carry new hires from “selected” to “joined”.

ADMIN & BUSINESS ENGINE

Run the business, your way

A powerful control centre with a fully dynamic commercial engine — define any package, credit pack or AI service with custom entitlements, no code required — plus GST billing, reports and multiple revenue streams.

- Dynamic packages, credit packs & entitlements
- GST-compliant invoicing (CGST/SGST/IGST)
- Employer wallets with manual top-up
- Reports & accounts — CSV + PDF export
- Revenue, funnel & employer-ranking analytics
- Coupons, credits & manual adjustments
- Staff roles & granular permissions
- CMS pages, blog & banner manager
- Branding, SMTP, backups & file manager
- Integrations configurable from the UI

Admin dashboard — revenue, orders, jobs & every commerce module.

Multiple revenue streams & marketplaces

Courses Marketplace

Sell training courses with online payment & enrolment.

Recruitment Services

List and sell managed hiring service packages.

Agencies & Partners

Agency panel + affiliate/reseller commission program.

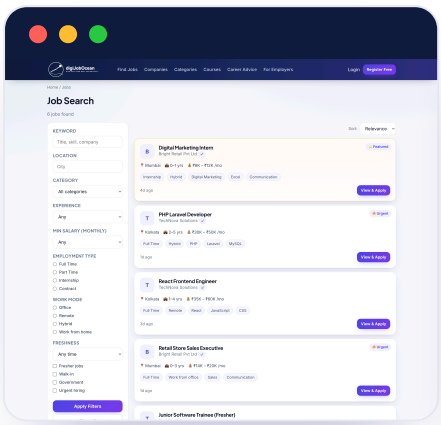

White-Label Portals

Branded tenant portals with custom colours & logo.

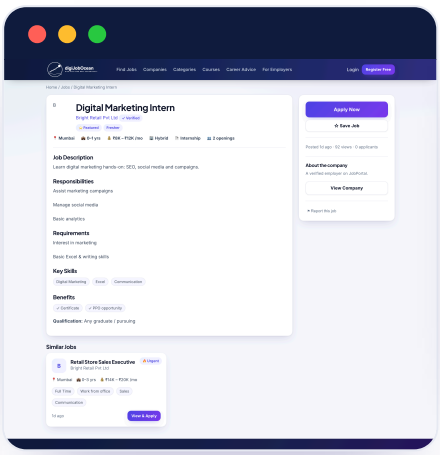

PUBLIC SITE & DISCOVERY

Beautiful, SEO-first public experience

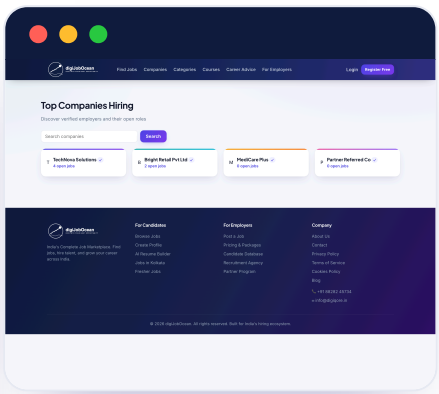

Every public page is fast, mobile-friendly and search-optimised — with structured job data, city & keyword landing pages, company profiles and a courses catalogue.

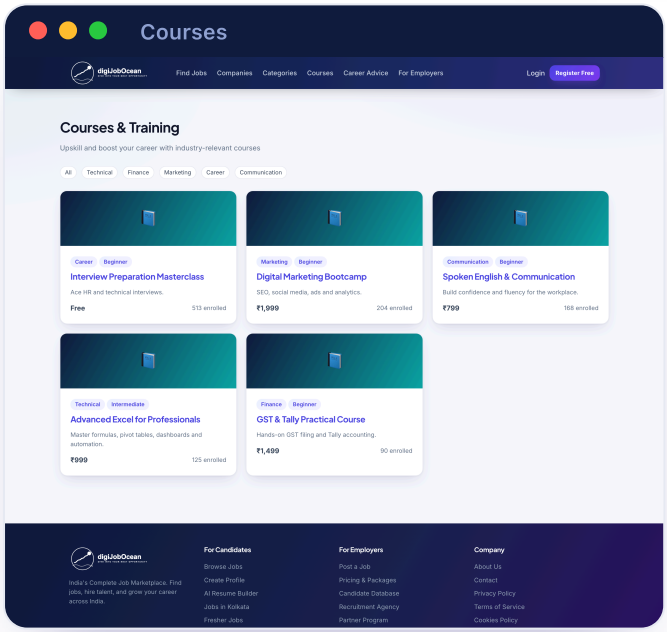

Job search & filters

Job detail page

Company directory

Courses marketplace

- Smart, filterable job search
- SEO landing pages: jobs-in-{city}, {skill}-jobs
- JobPosting structured data (rich results)
- Company profiles & open-role pages
- Career advice blog & CMS pages
- Cookie consent & privacy-first analytics
- Contact & enquiry forms → admin inbox
- Google Analytics & social integrations

TECHNOLOGY & INTEGRATIONS

Enterprise-grade, integration-ready

Real, production-ready integrations — not mock-ups — with graceful fallbacks so the platform runs anywhere, from a single server to a scaled deployment.

Elasticsearch Search

Fast, typo-tolerant, ranked search for jobs & candidates — with automatic MySQL fallback.

Real AI (LLM)

Live Anthropic / OpenAI integration powering every AI career tool.

Payments

Razorpay & Cashfree with secure signature verification.

SMS & WhatsApp

Twilio, MSG91, Fast2SMS & WhatsApp Cloud API.

PWA & Web Push

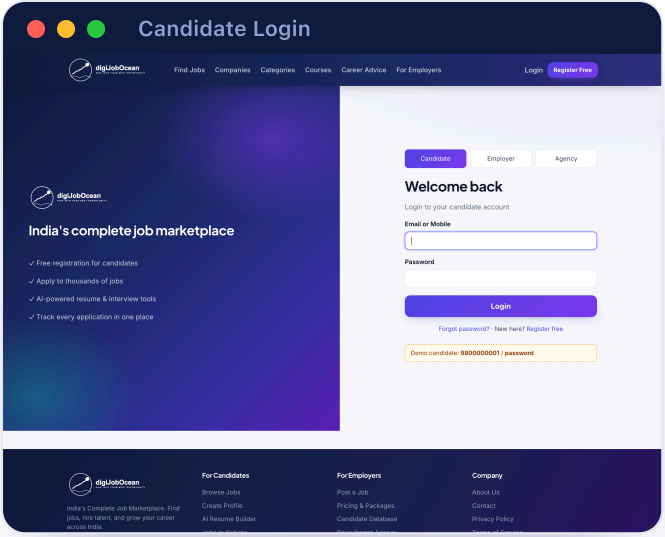

Installable app experience with VAPID web-push alerts.

REST API v1

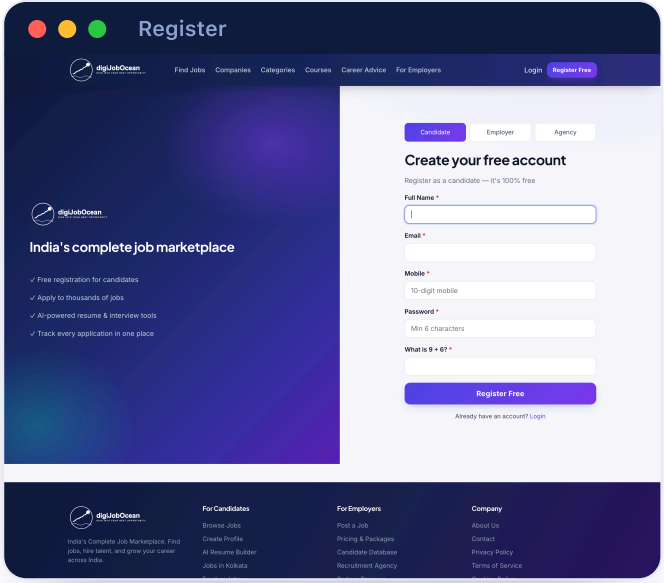

Key-authenticated API for jobs, applications & candidates.

Security, reliability & billing

- ₹ GST invoicing
- PDF & CSV reports
- Automated DB backups
- Login rate-limiting
- IP blacklist
- CAPTCHA
- CSRF protection
- Role-based access
- Audit log
- SMTP email
- Multi-tenant isolation
- Plain PHP · MySQL

Unified, branded sign-in

Free candidate registration
