OVERVIEW

Everything a hospital runs on — in one software

HospiVexa replaces the patchwork of billing software, pharmacy software, spreadsheets and registers with a single system. Every department works on the same patient record, every rupee is posted to accounts automatically, and management sees the whole hospital in real time.

50+
integrated modules

1
patient record (UHID)

100%
auto-posted accounts

24×7
web & mobile access

FRONT OFFICE

- Patient registration & UHID
- ABHA / ABDM
- Appointments
- OPD tokens & queue
- Self check-in kiosk
- Enquiry & visitors

CLINICAL

- Doctor desk & e-Rx
- EMR / patient record
- Nursing station & MAR
- ICU charting
- Emergency & MLC
- Operation theatre

DIAGNOSTICS

- Laboratory (LIS)
- Radiology & imaging
- PC-PNDT Form F
- Blood bank

REVENUE

- Unified billing
- Cashier & day closing
- Insurance / TPA claims
- Payment links & UPI QR
- Pharmacy POS
- Purchases & expiry

FINANCE

- Double-entry accounts
- Doctor payouts & TDS
- GST returns & JSON
- Tally export
- Reports & MIS

PEOPLE

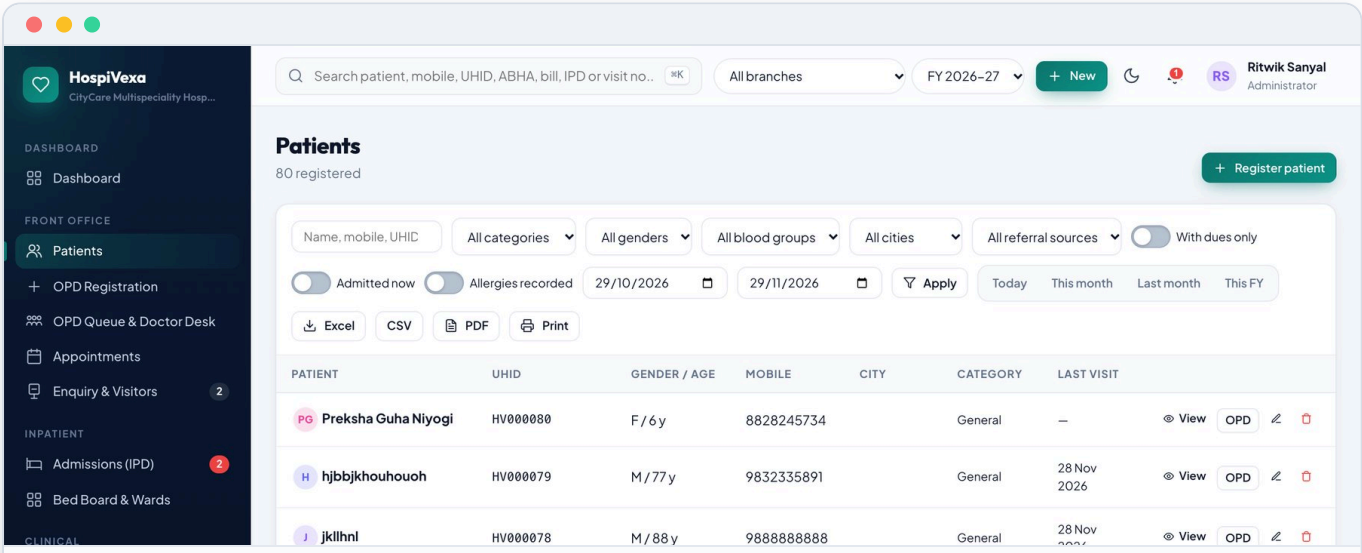

- HR & attendance
- Duty roster & leave
- Payroll (labour codes)
- PF / ESI / PT / TDS
- Full & final, Form 16

OPERATIONS

- General store
- Ambulance
- Home healthcare
- Housekeeping & linen
- Biomedical waste
- Maintenance & assets

QUALITY & DIGITAL

- NABH indicators
- Incidents & infection control
- Patient portal
- Staff mobile app
- Video consultation
- AI assistant

Patient master — search by name, mobile, UHID, ABHA or Aadhaar, with smart filters on every list

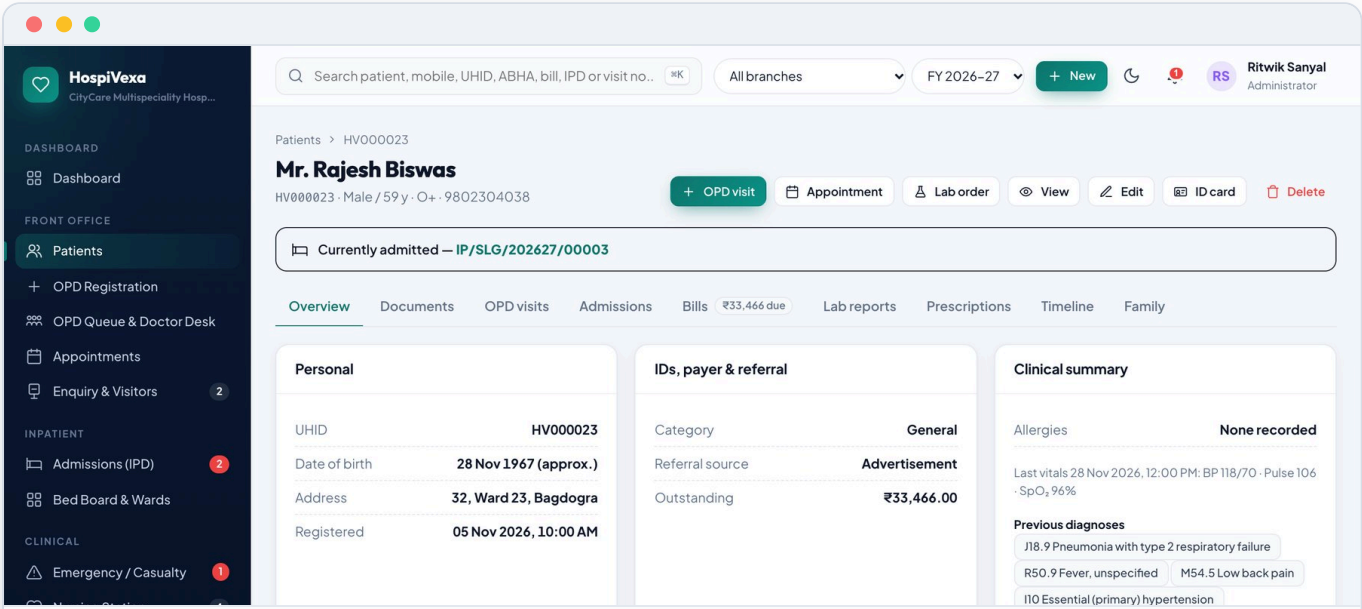

01

FRONT OFFICE

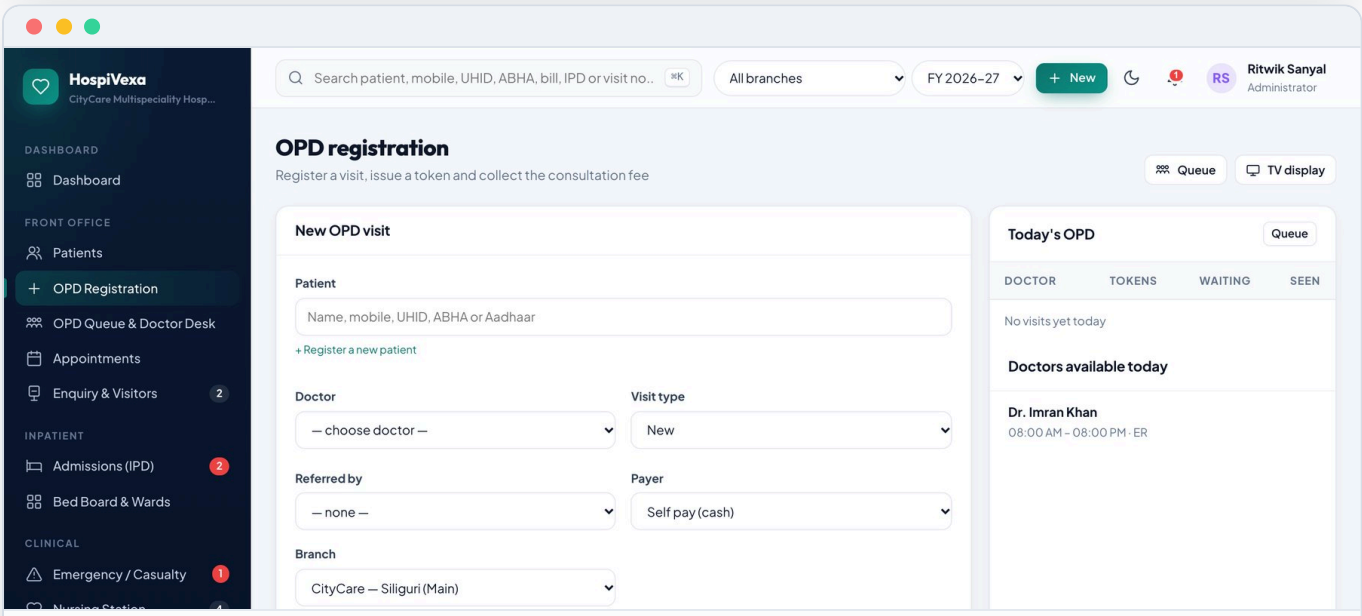

Patient registration & OPD

Register a patient once and every department sees the same record — with UHID, ABHA and a complete history from the first visit.

- UHID generation, duplicate check by name, mobile, DOB or Aadhaar
- ABHA number & address, ID proof and bulk medical-document upload
- Family linking, VIP & category tags, referral source tracking
- OPD tokens per doctor & session with free follow-up rules
- Doctor schedules, leaves, slots and online / video availability
- Enquiry desk, visitor passes and appointment booking

Patient profile with documents, visits, bills, labs & timeline

OPD registration with fee, tokens and services

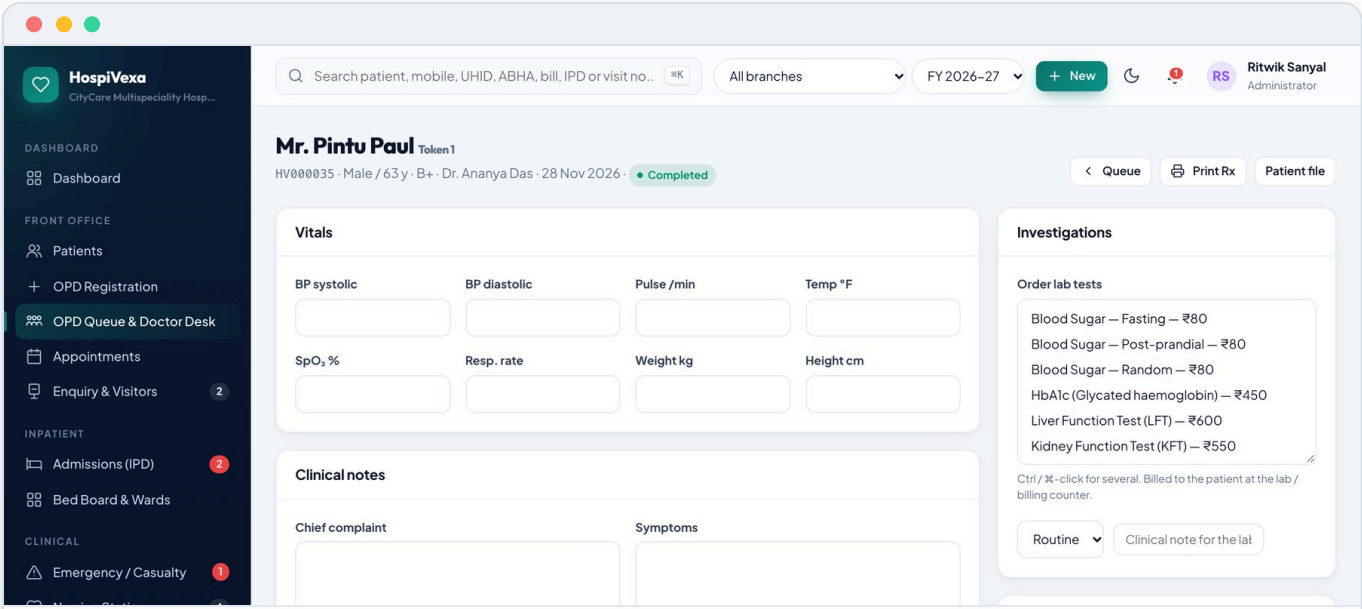

02

CLINICAL

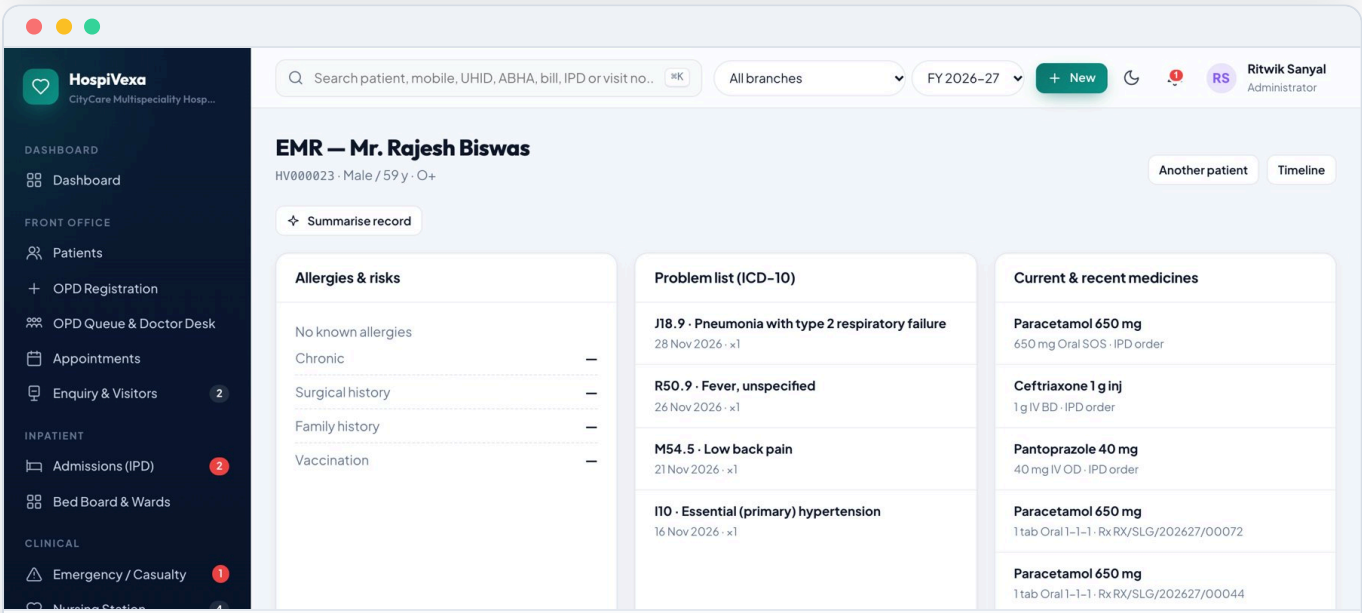

Doctor desk & e-prescription

A fast consultation screen built for busy OPDs: vitals, complaints, ICD-10 diagnosis, investigations and prescription in one place.

- Vitals, chief complaint, examination & ICD-10 diagnosis
- E-prescription from templates, with allergy alerts on every drug
- Order lab & imaging tests straight from the consultation
- Advice, follow-up date and printable prescription
- Live OPD queue with call / skip / recall and TV display
- Self check-in kiosk with Pay at Counter or Pay Online (QR)

Doctor desk — consultation, investigations & prescription

EMR — problem list, medicines, vitals & lab trends

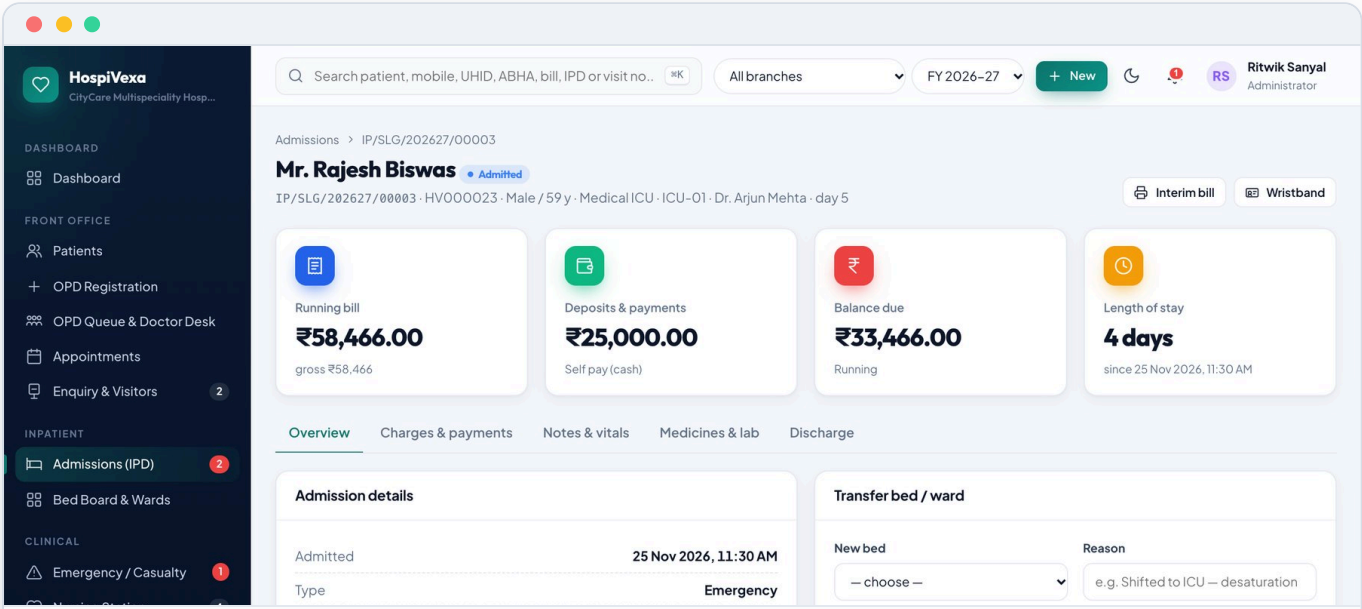

03

IN-PATIENT

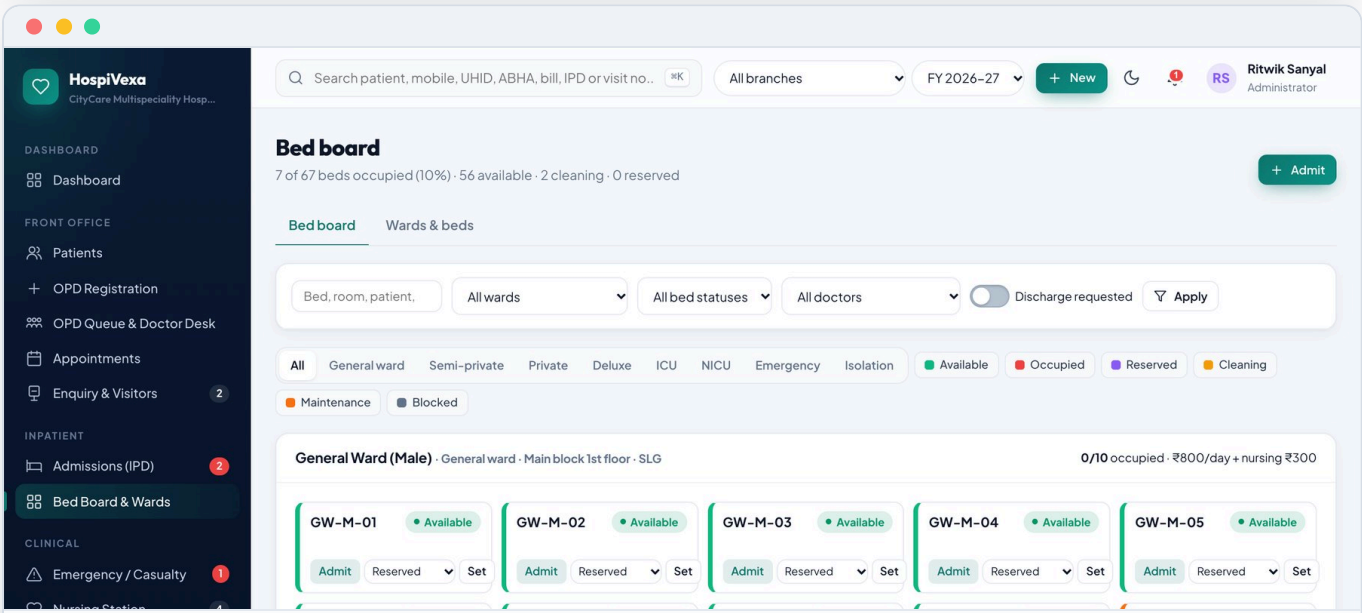

IPD, beds, nursing & ICU

From admission to discharge: live bed board, charges posted automatically, nursing charts and an ICU flow sheet.

- Admission with deposit, payer, referring doctor and MLC
- Live bed board — occupied, reserved, cleaning, maintenance
- Bed / doctor transfers with automatic bed-day charges
- Doctor rounds, nursing notes, MAR, intake / output, handover
- ICU board with ventilator, O_2, GCS charting and alerts
- Discharge request → approval → summary → final bill

Admission file — charges, deposits & clinical notes

Live bed board across wards

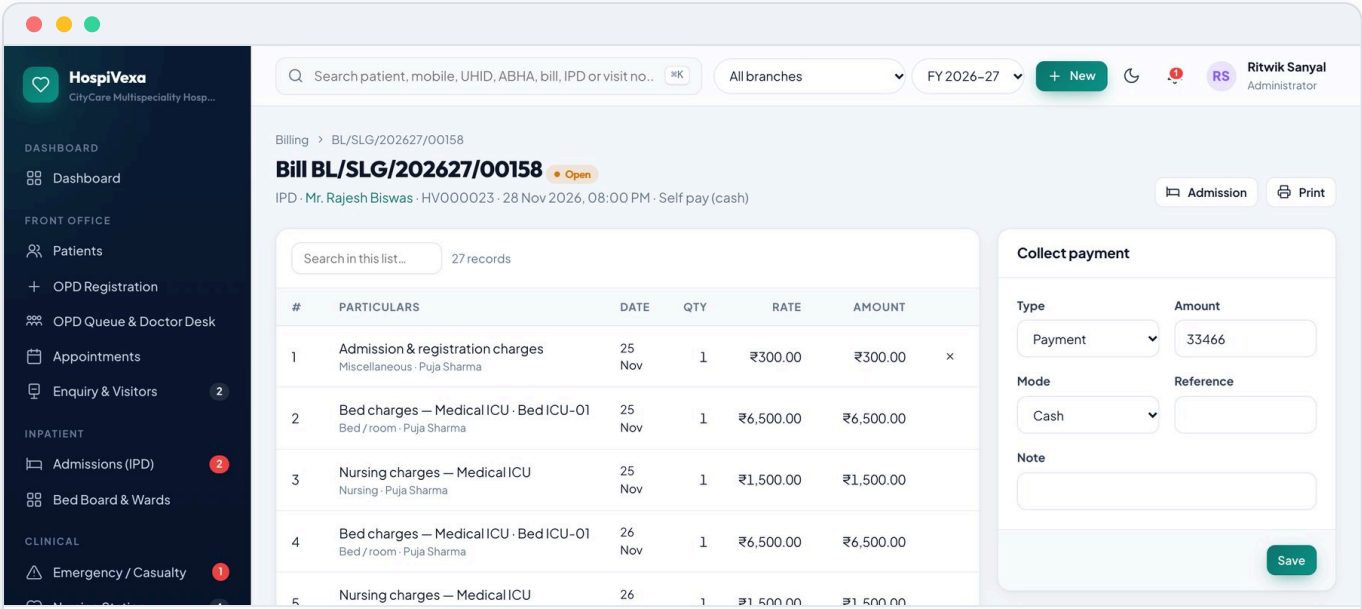

04

REVENUE

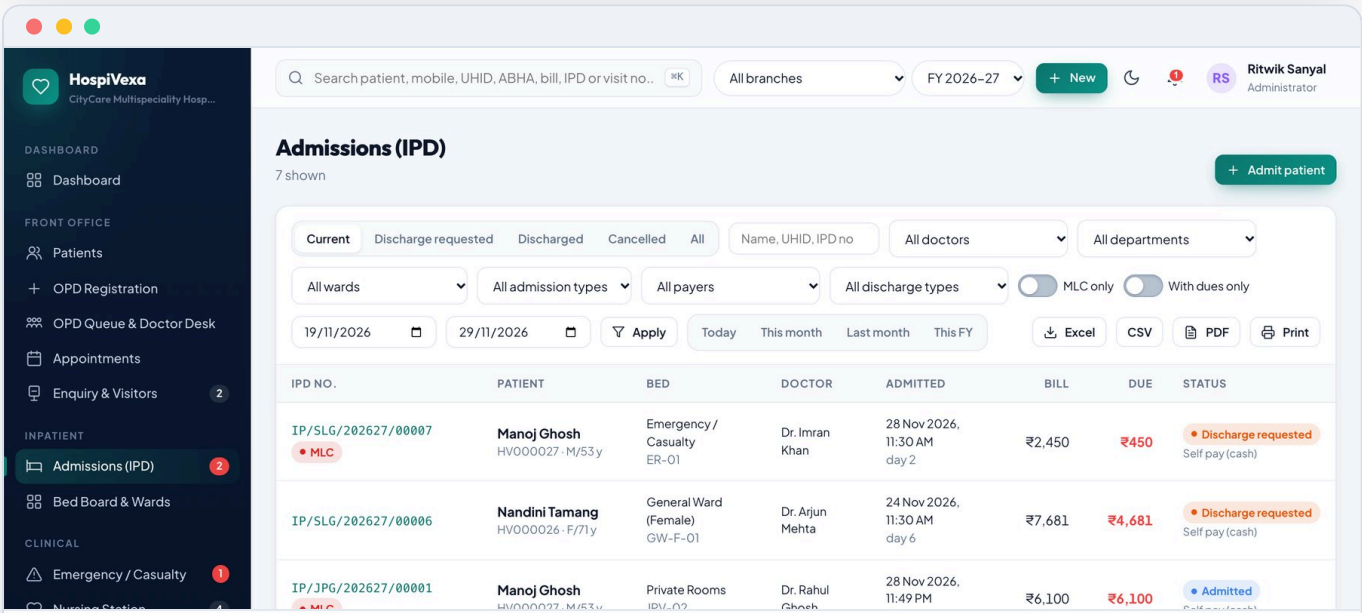

Billing, cashier & insurance

One unified bill per visit or admission, with deposits, part payments, maker-checker discounts and full audit.

- OPD, IPD, pharmacy, lab and service bills from one tariff master
- Advance deposits, part payments, refunds and payment receipts
- Discount limits per role with approval above the limit
- Cashier shifts, day-end closing and variance tracking
- Insurance / TPA & government schemes — pre-auth to settlement
- Payment links & UPI QR for online collection

In-patient bill with deposits and receipts

Admissions list with powerful filters

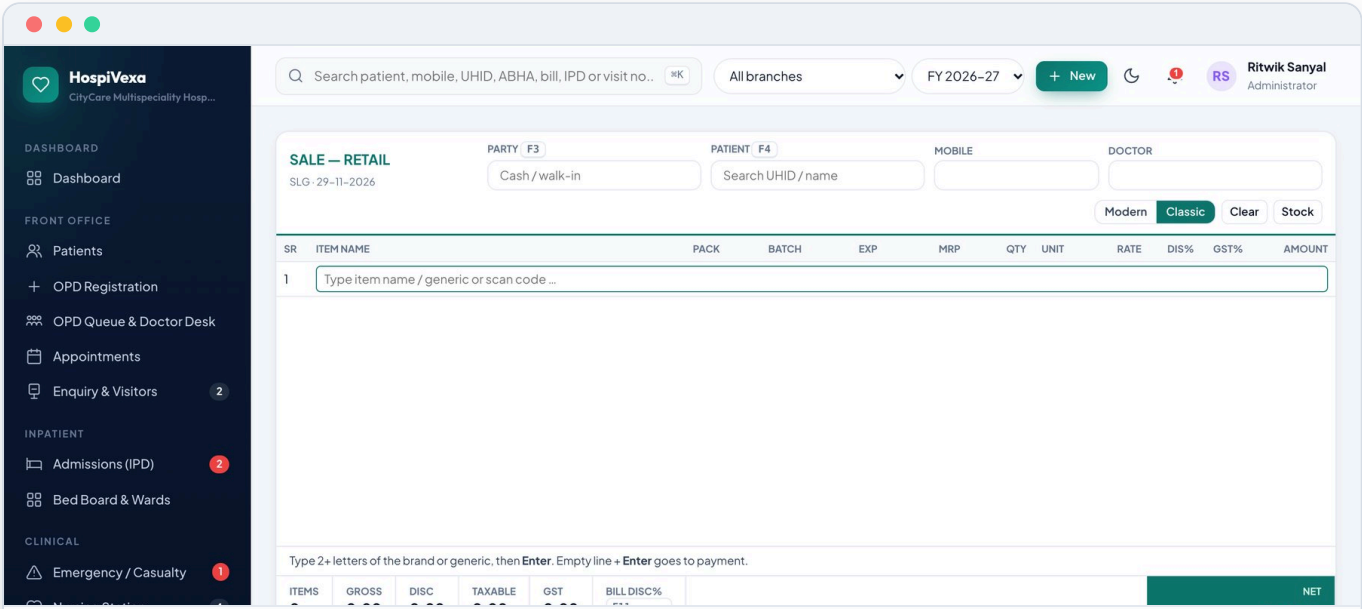

05

PHARMACY

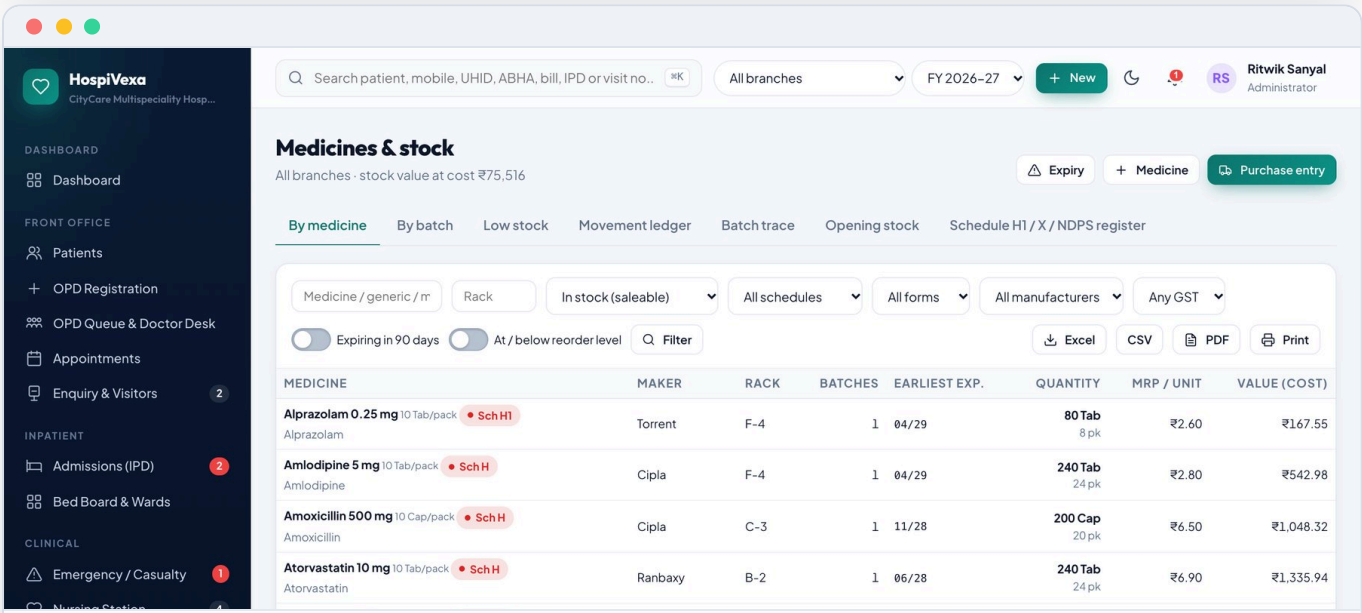

Pharmacy POS, stock & expiry

A retail-grade pharmacy with FEFO batches, GST billing and the Schedule H1 / NDPS register built in.

- Modern and classic POS layouts with barcode / quick search
- FEFO batch selection, MRP & GST-inclusive pricing
- Purchase (GRN) entry with new-medicine creation on the fly
- Stock by medicine or batch, reorder levels, rack locations
- Near-expiry & expired lists, returns to supplier, write-offs
- Schedule H / H1 / X / NDPS register with prescriber details

Pharmacy point of sale

Medicine stock with batches, schedules & GST

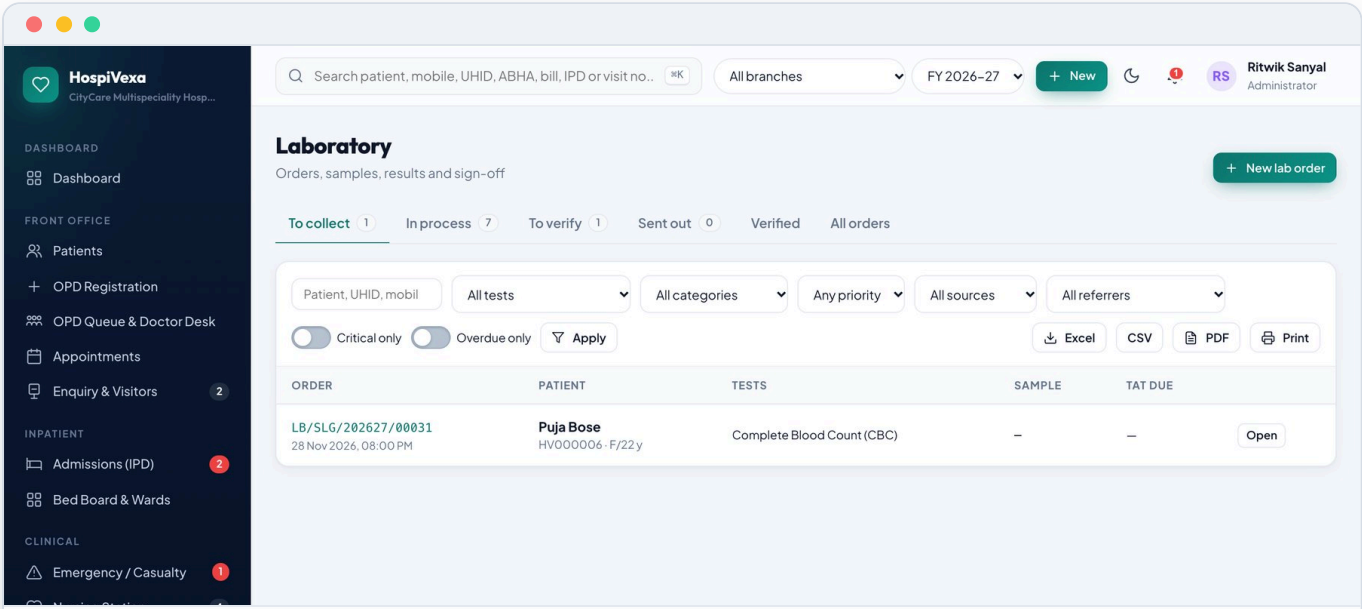

06

DIAGNOSTICS

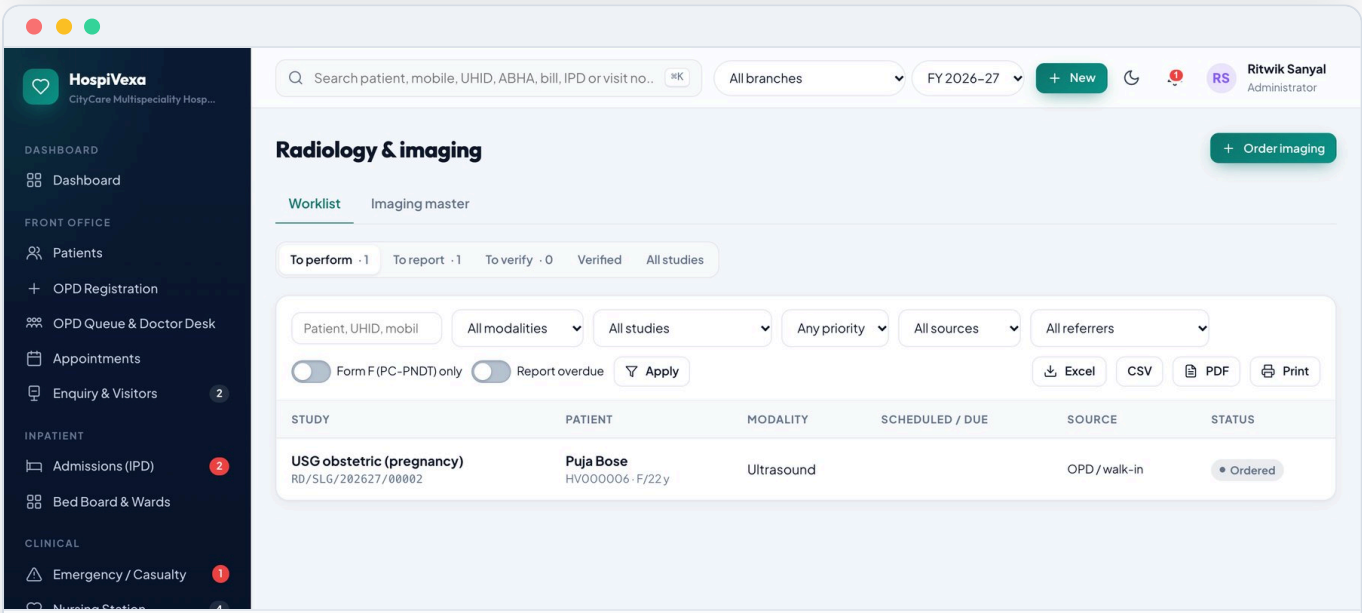

Laboratory & radiology

Sample-to-report workflow with turnaround tracking, critical-value alerts and digitally signed reports.

- Test master with parameters, reference ranges & sample types
- Sample collection, barcode sample numbers, outsourcing
- Result entry with auto-flagging of high / low / critical values
- Pathologist verification and signed PDF reports
- Radiology & imaging worklist — perform, report, verify
- PC-PNDT Form F for ultrasound, TAT & overdue tracking

Laboratory work queues

Radiology & imaging worklist

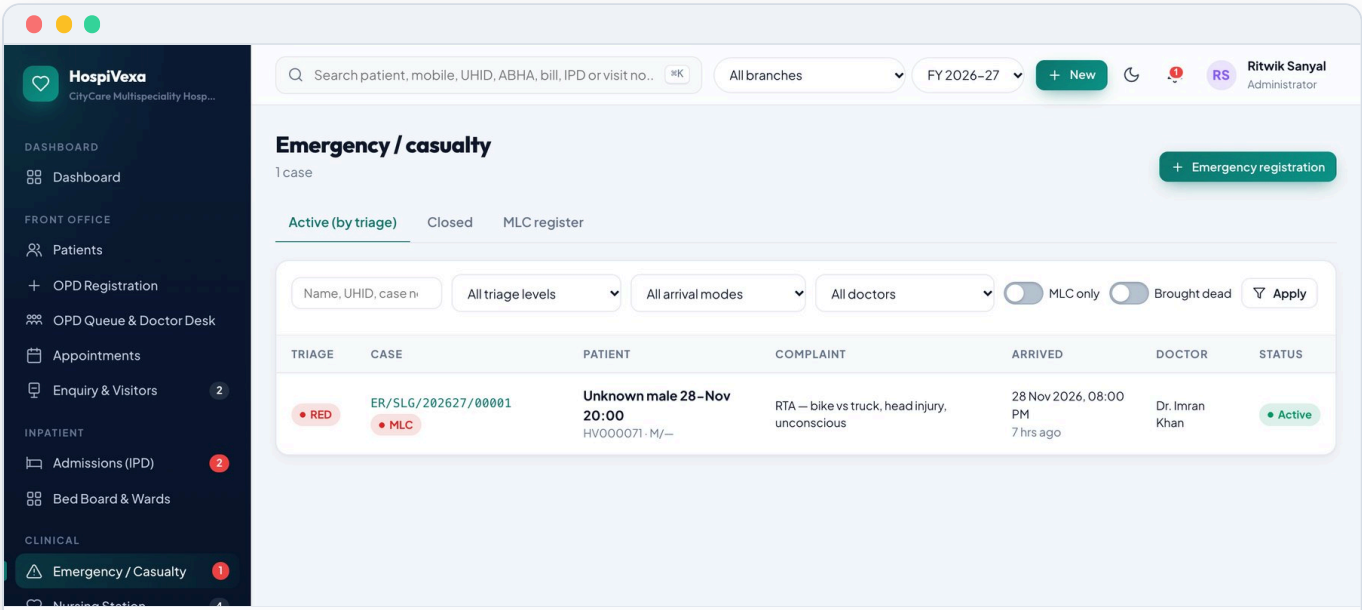

07

CRITICAL CARE

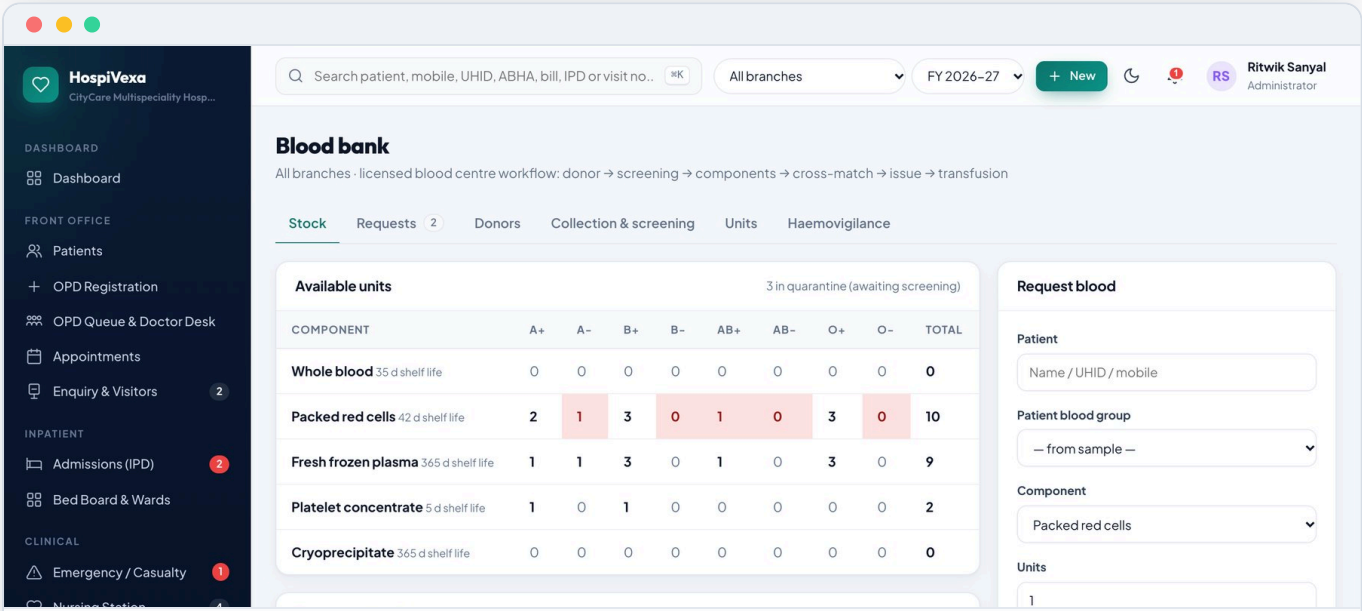

Emergency, OT & blood bank

Specialised workflows for the departments where every minute and every record matters.

- Emergency triage, MLC register, police intimation & disposition
- OT scheduling by theatre, surgeon & anaesthetist
- WHO checklists, operative notes and OT charges
- Blood bank: donors, collection, screening, components
- Cross-match, issue, transfusion & reaction (haemovigilance)
- Birth & death registers — Form 1, 2, 3 and MCCD

Emergency / casualty board

Blood bank stock by group & component

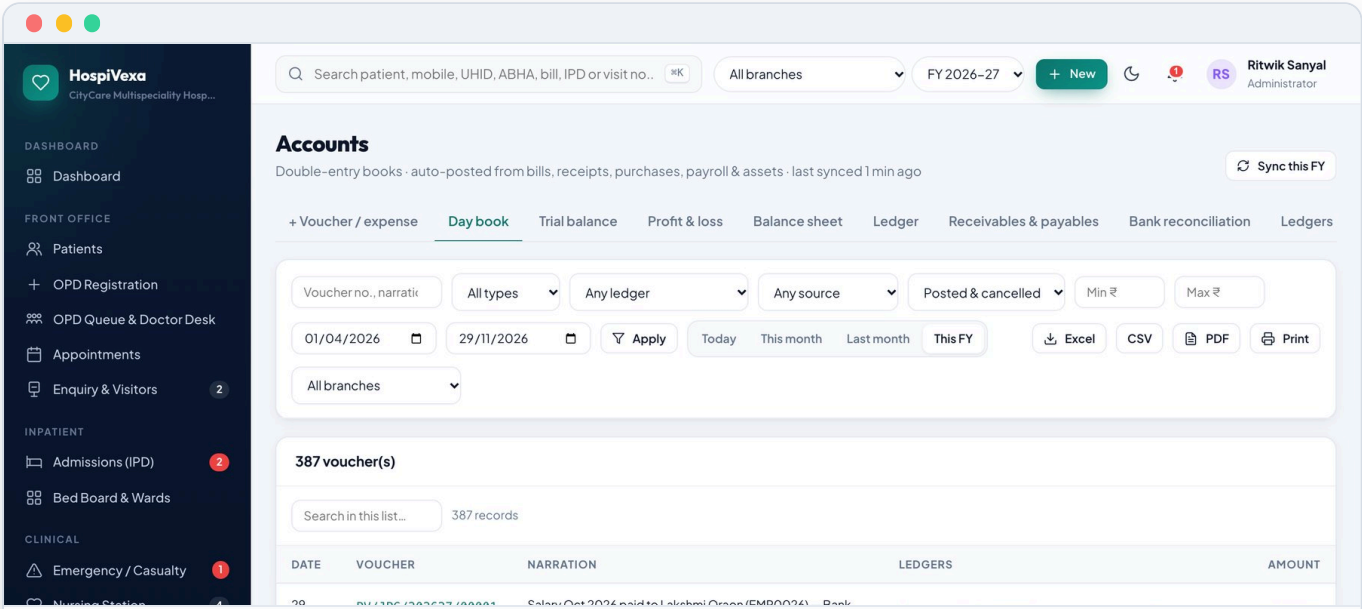

08

FINANCE

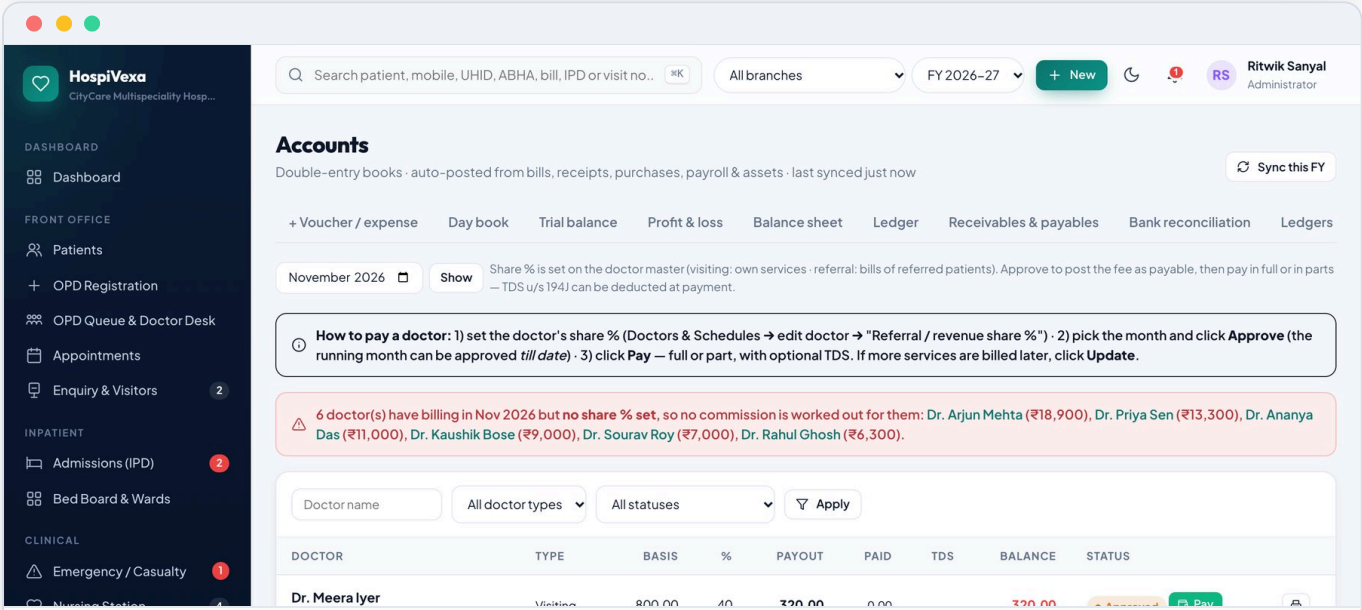

Accounts & doctor payouts

True double-entry books, posted automatically from every bill, receipt, purchase, payroll and asset — no separate accounting software needed.

- Auto-posted vouchers, day book, ledgers, trial balance
- Profit & loss, balance sheet, receivables & payables
- Bank reconciliation, period lock and Tally export
- Doctor commission / share — approve, pay in full or in parts
- Automatic TDS u/s 194J with the ₹50,000 limit and catch-up
- Payout statements with every billed service listed

Day book with voucher filters

Doctor payouts with part payments & TDS

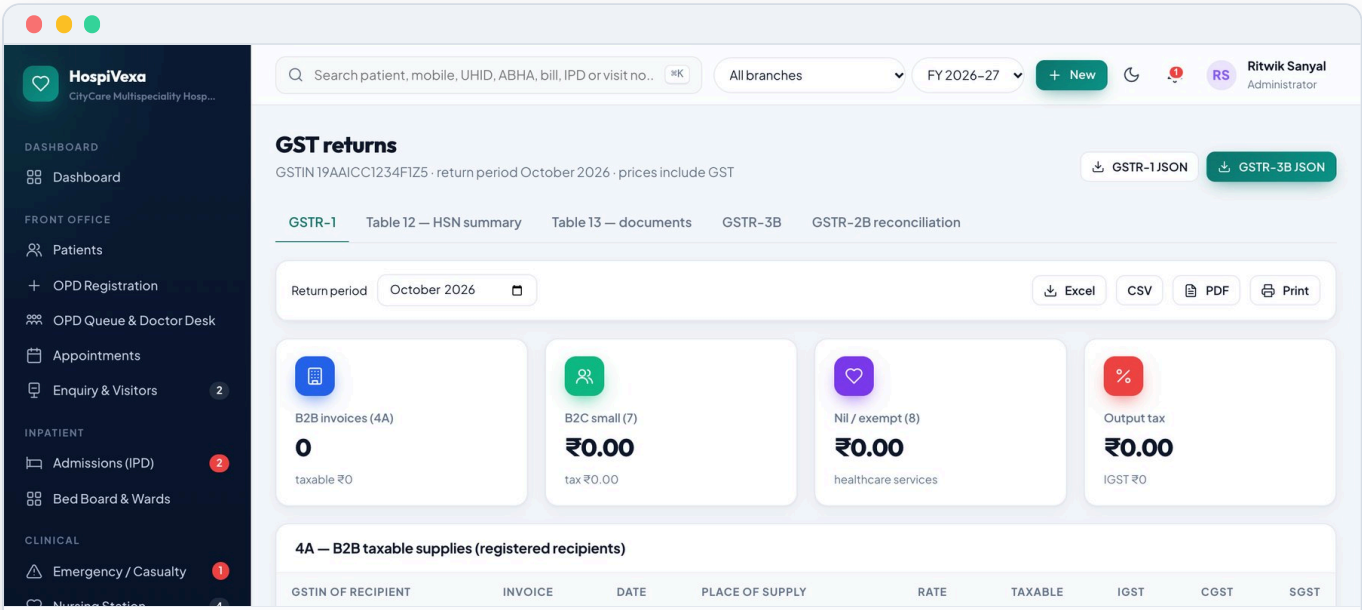

09

COMPLIANCE

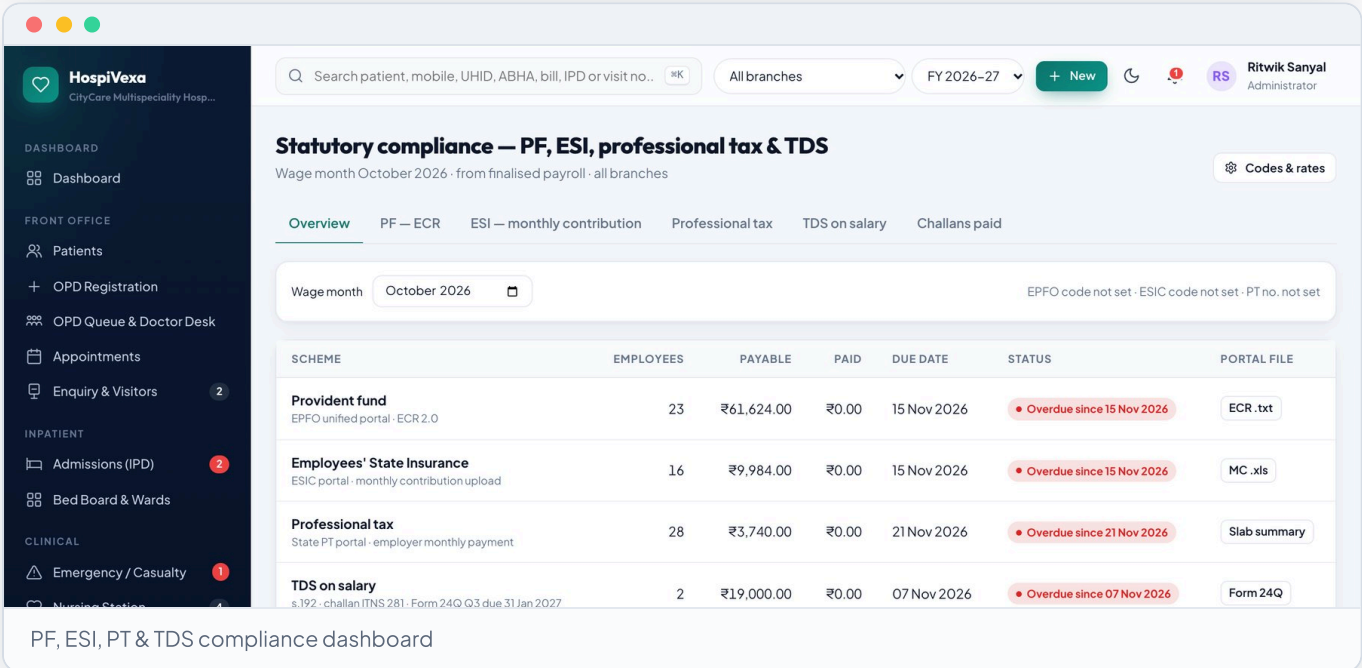

GST & statutory compliance

Government-ready returns and challans generated from your own data — less work for your CA, fewer mistakes.

- GSTR-1, GSTR-3B and GSTR-2B reconciliation
- Table 12 (HSN) & Table 13 with portal-ready JSON
- PF ECR 2.0, ESIC monthly file and PT returns
- TDS on salary, Form 24Q and Form 16
- Due-date tracking with challan records
- Clinical-establishment and PC-PNDT statutory formats

GST returns with JSON export

PF, ESI, PT & TDS compliance dashboard

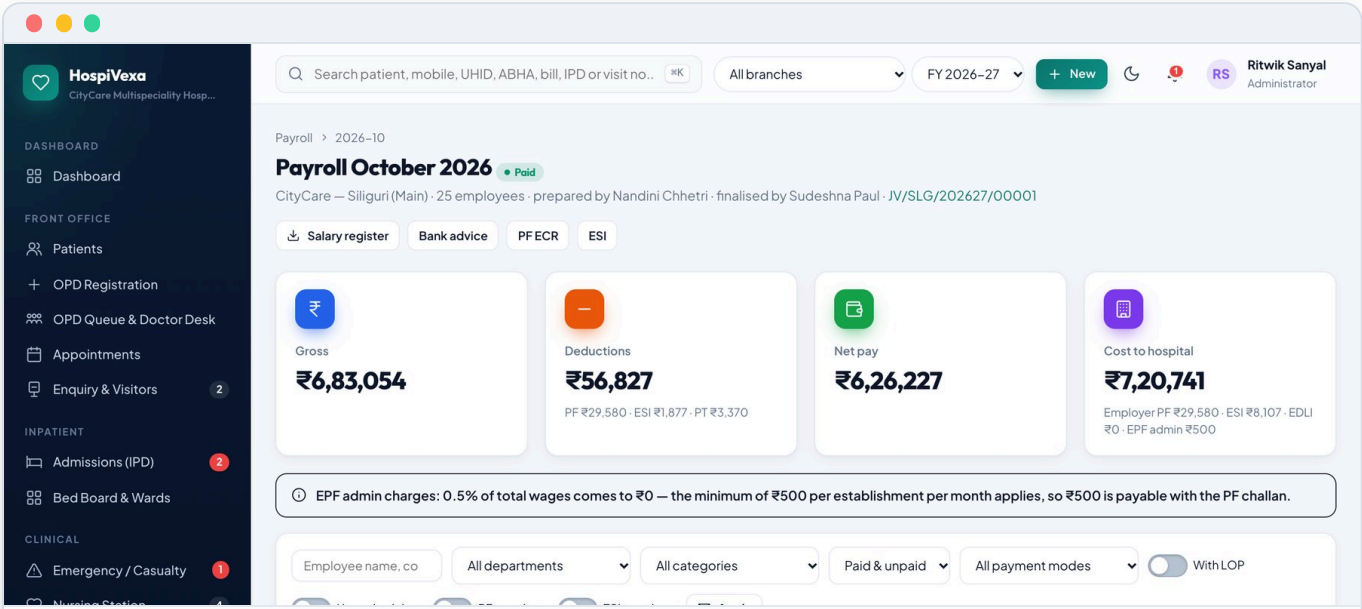

10

PEOPLE

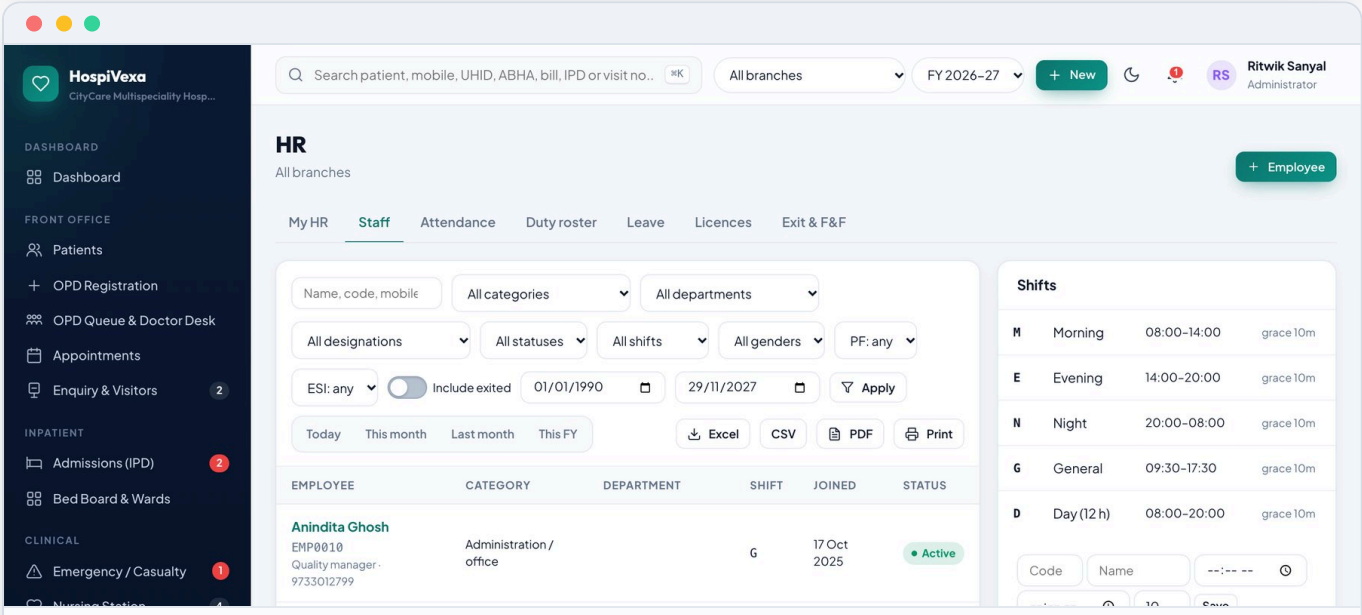

HR & payroll

Payroll aligned with the new labour codes — PF, ESI, EDLI, professional tax and gratuity worked out for you.

- Employees, shifts, duty roster, attendance & leave
- Salary structures with auto-split by component rules
- PF / EPS / EDLI on wages with ₹25,000 cap, ESI up to ₹21,000
- State-wise professional-tax slabs
- Maker-checker payroll, staff-wise salary payment with UTR
- Full & final settlement, gratuity and Form 16

Payroll run with staff-wise payment

HR staff directory with filters

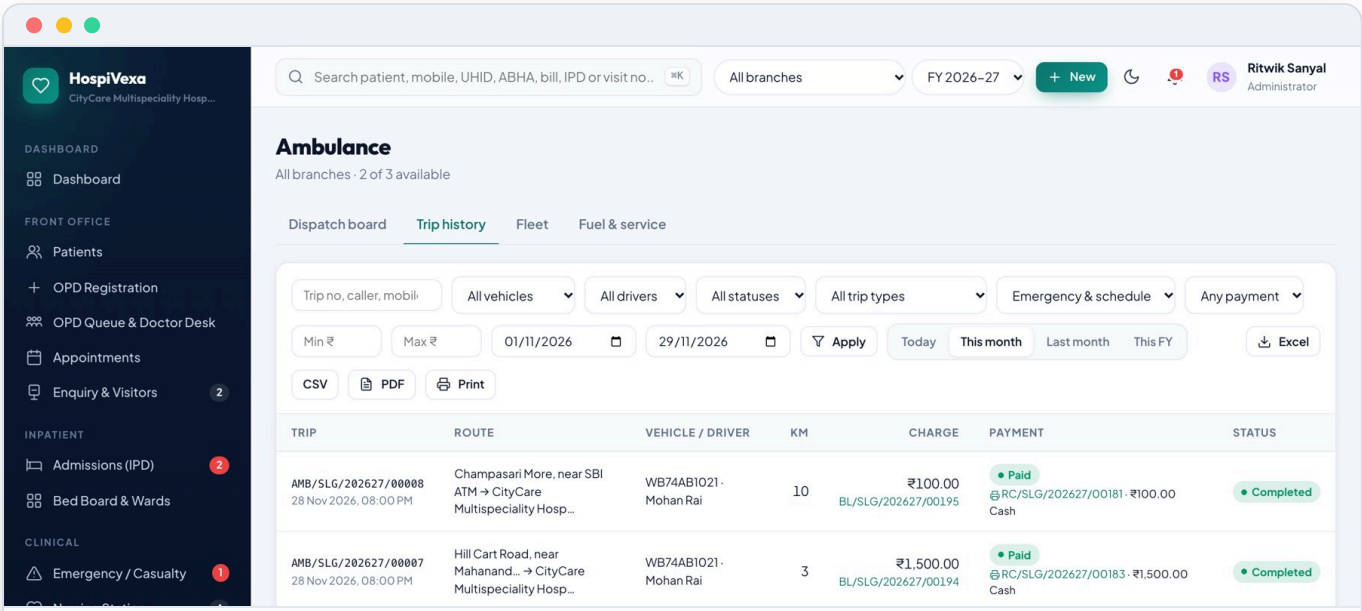

11

OPERATIONS

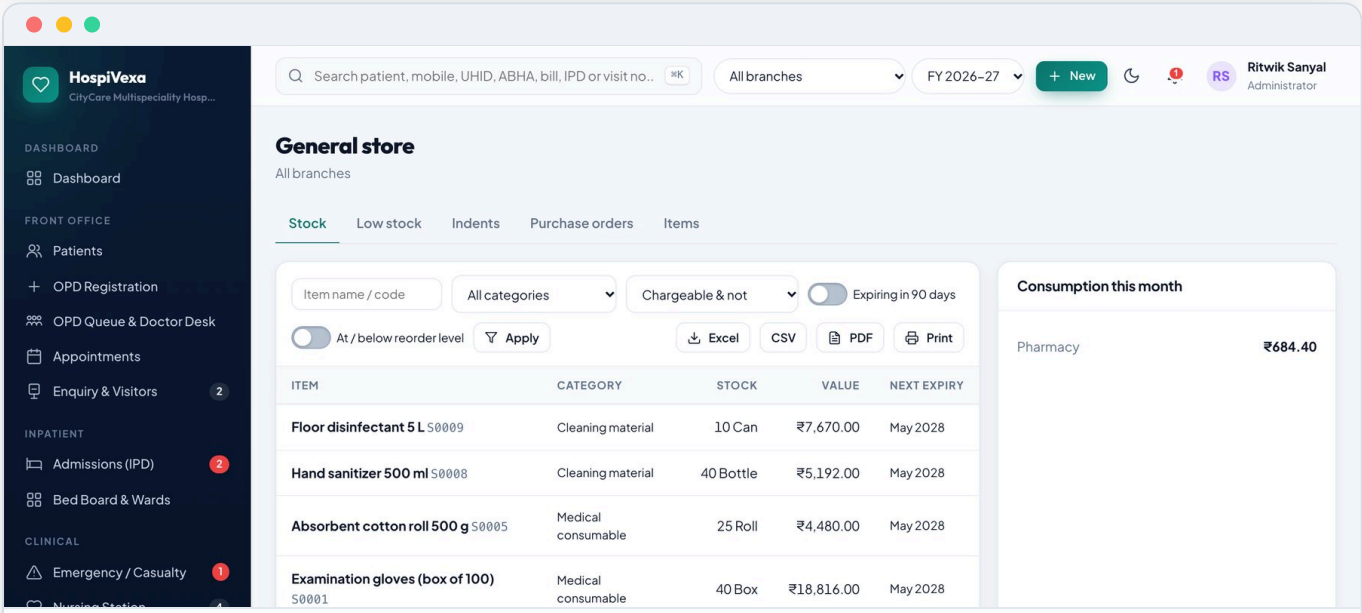

Ambulance, home care & stores

Run the whole hospital, not just the clinical side.

- Ambulance dispatch, trips, fuel, driver allowance & billing
- Home healthcare visits and equipment rentals
- General store: indents, purchase orders, issues
- Housekeeping tasks, linen & laundry, biomedical waste
- Maintenance tickets, preventive maintenance & SLA
- Asset register with calibration, AMC & depreciation

Ambulance trips with payment collection

General store stock & indents

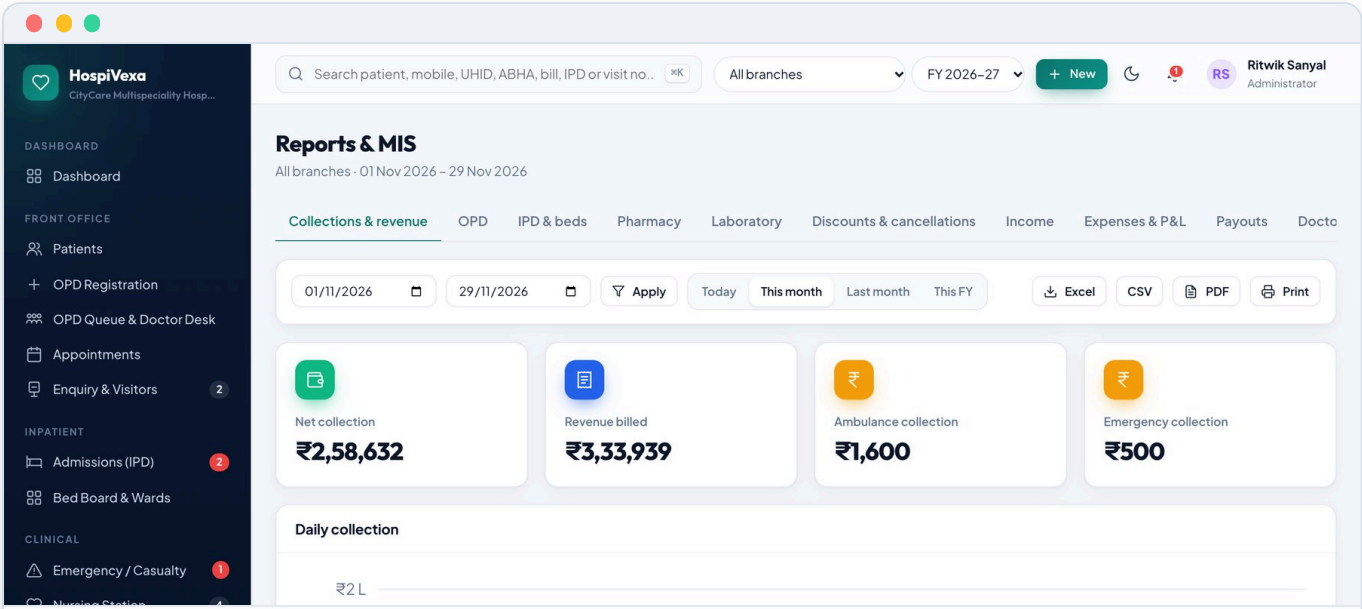

12

QUALITY

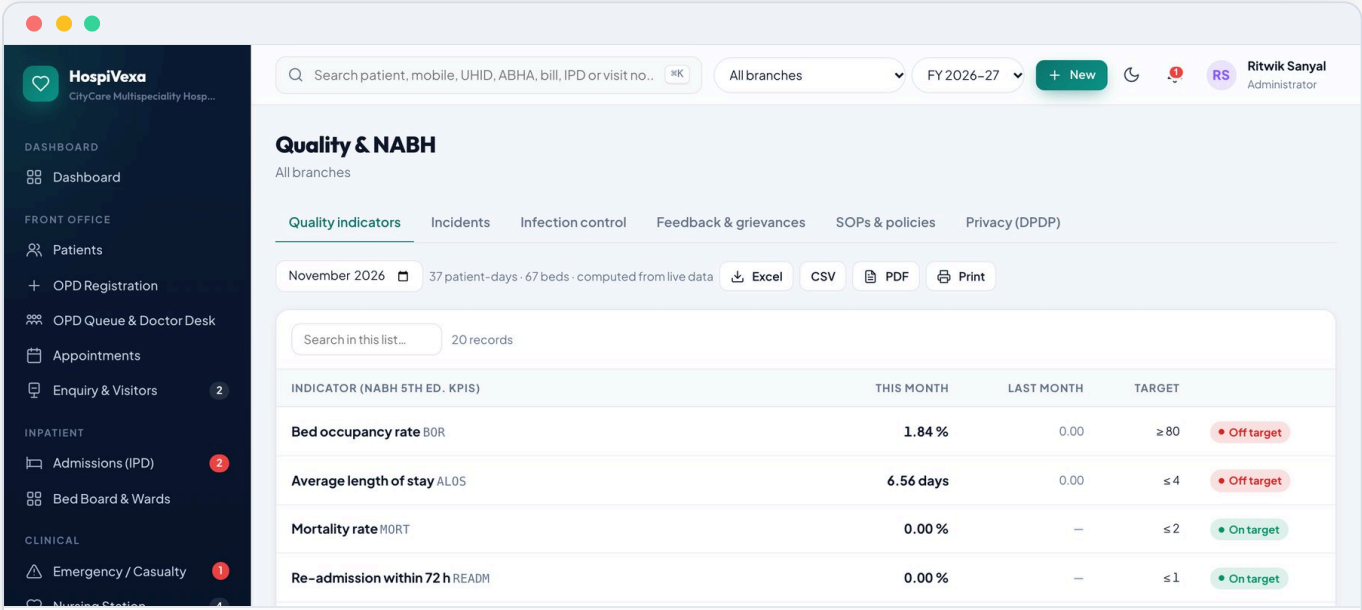

Quality, NABH & reports

Measure what matters with NABH indicators, incident management and more than twenty management reports.

- NABH quality indicators & dashboards
- Incident reporting, investigation & closure
- Infection control, hand-hygiene audits, HAI tracking
- Feedback & grievances with DPDP consent management
- Income, expense & P&L, payouts, commission, receivables, payables
- Every report exportable to Excel, CSV, PDF or print

Collections & revenue analytics

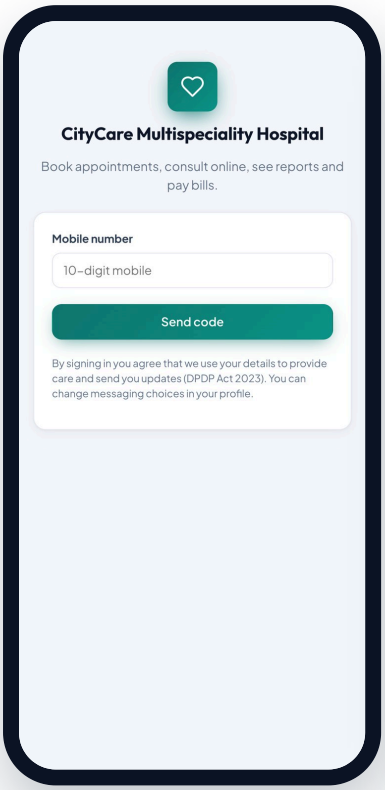

Quality & NABH indicators

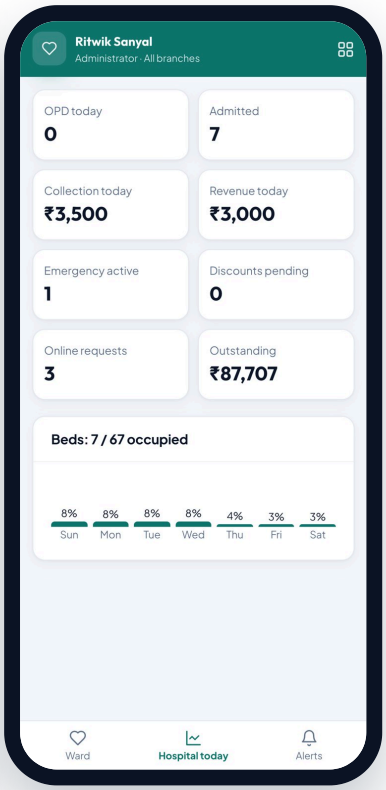

13

DIGITAL HOSPITAL

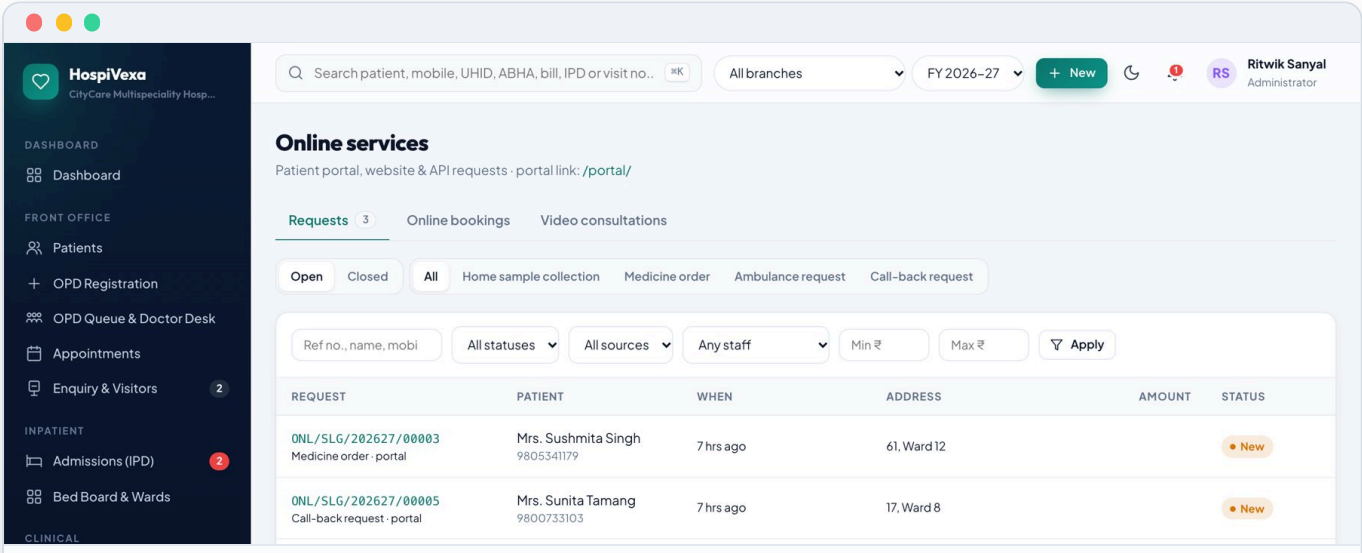

Patient portal, mobile app & integrations

Give patients and staff the hospital in their pocket — and connect HospiVexa to the national health stack and your other systems.

- **Patient portal (PWA)** — OTP login, book appointments, view reports & bills, pay online
- **Staff mobile app** — ward view, hospital today, alerts — installable on any phone
- **Video consultation** — built-in WebRTC tele-consult with payment
- **Self check-in kiosk** — token, payment by QR, receipt and OPD visit in one flow
- **ABDM / ABHA** — create & link ABHA, care contexts and consent requests
- **WhatsApp & SMS** — templated alerts, reminders and payment links
- **AI assistant** — drafts, OCR, voice notes and management insights
- **Open API & webhooks** — LIS / PACS, e-invoice and third-party integrations

Online desk — portal bookings, home sample collection, medicine orders & call-backs

14

SECURITY & CONTROL

Built for trust, audit and growth

Hospital data is sensitive. HospiVexa is designed so the right people see the right data — and every action can be traced.

Role-based access

View / Add-edit / Delete on every module plus fine-grained actions, per role and per user

Two-factor sign-in

authenticator-app 2FA, account lock-out and session time-out

Complete audit trail

who changed what and when — before and after values

Maker-checker

payroll finalisation, discounts above limit, payouts

Multi-branch

branch-wise data, consolidated view, stock & patient transfers

Data protection

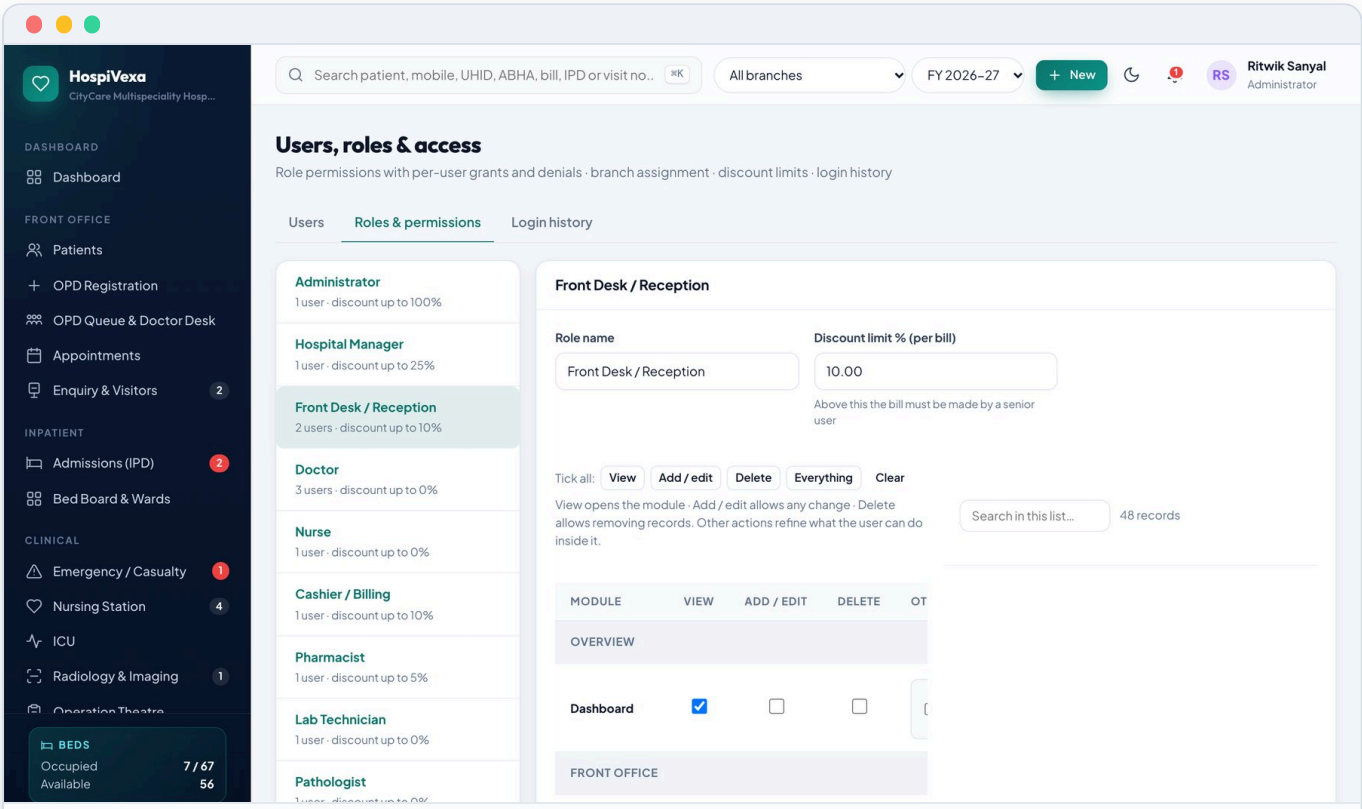

DPDP Act consents, private document storage, logged downloads

Automatic backups

daily backups with retention and one-click restore

Period lock

books locked after closing so history cannot change

Role permissions — View, Add / edit, Delete and module-specific actions

WHY HOSPIVEXA

The smarter way to run your hospital

Made for Indian hospitals
GST, labour codes, PF/ESI/PT, TDS, PC-PNDT, MCCD, ABDM — built in, not bolted on.

One record, zero re-entry
Registration, clinical, billing, pharmacy and accounts share the same data.

Fast to learn
Clean screens, smart search and filters on every list; staff are productive in days.

Your branding
Your hospital name, logo, letterheads, bill formats and print layouts.

Deploy your way
Cloud hosting or on your own server; works on desktop, tablet and mobile.

Local support
Implementation, data migration, training and ongoing support from our Jalpaiguri team.

HOW WE GET YOU LIVE

1. **Demo** — see it with your workflows
2. **Setup** — masters, tariffs, branding
3. **Migration** — patients, stock, balances
4. **Training** — department by department
5. **Go-live** — with on-site / remote support
